

ALL the behavior is always best choice for me
Reaching out least as far is in this glass education
there could do no harm and would have is good
a chance of helping me
i believe this a programmed to expectation
of in the mind need, and variety of human
being to seek for i behave is i feel good
as possible, and belong in the process
when i seek i do so with the hope that
someone will always welcome
so i prefer learning so i feel good much
of the time, my behavior in my life to learn
focuses much better it is my hope that

thank you very much and God bless you
