Dear Whomever,

Greetings, I hope and pray that my letter and release form finds you and everyone there involved in the APWA in the best of health, happiness and strong spirits.

I am surviving here, presently struggling for a religious diet with the PA. DOC, and boycotting the dining hall food and subsisting on commissary food that contains no animal products, don't get as much to eat as I should as funds are limited and as a result have lost over 30 pounds, am somewhere between the weight of 125 & 129, I would guess, acceptable range for my height of 5'7"-5'8", moving towards the low end of the healthy scale.

though and really don't expect to be in general population much more than a month, before I'm put in the infirmary, likely naked in a psych observation cell as a danger to myself.

Was prescribed medication on 12-24-12, eyedrops for glaucoma by the visiting contract Ophthalmologist, but the Health care Department here didn't order the medication, I found this out on 4-3-13, and have been complaining since and here it is 5-5-13 and I still haven't received the medication, the perils of being a problematic prisoner, and by problematic I mean complainant of conditions, struggling against their repression of religious belief, refusal to accept my wrongful convictions through maintaining my innocence and of course being a political prisoner - prisoner of war. Oh well, I guess the plan is if I go blind slowly eventually I won't be problematic, cause I won't be able to see to write, bunch of dummies, thinking blindness could still my hand.

anyhow I'd make some copies of your letter and pass it around to a couple of

other prisoners, and encourage them to do the same.

Can I send you more writings, some have been published and some haven't and some don't necessarily relate to prison life, but deal with societal or spiritual or political issues that I guess in some ways peripheral to imprisonment.

Please let me know, Thank you.

Well I got to go been up 20 hours, only had 1800 calories today and have to get up at 6:00 A.M. course back pain from the mattress will likely wake me before that. If they strapped me to the mattress it would be torture, but since I can choose not to use it, it's not, but in reality I don't have a choice as the only other option is a concrete floor.

Guess I'm out of here, Take Care & Stay Strong.

Blessings
Wildcat
