I have been in Solitary Confinement ("Restricted Housing Unit" (RHU)) since August 8, 2014 for misconduct (#B266541) charges of allegedly assaulting D-Block Unit Manager Ivan with a weapon.

Some prisoners who have had their z-code ("single cell") status removed by S.C.I.-Greene staff accepted a cellmate only to assault said innocent/unknowing cellmate in order to show S.C.I.-Greene staff that staff should have never removed their z-code. Some refuse to "double-cell," so they are placed in Solitary Confinement and repeatedly given misconducts for refusing to "double-cell." Therefore, they will never get out of Solitary Confinement unless they "double-cell" (accept a cellmate). So, many prisoners who lose their z-code choose to continue to assault cellmates until their z-code is returned. Such cellmate-on-cellmate violence is encouraged/allowed by S.C.I.-Greene staff. And staff continue to get away with it because only prisoners are getting hurt.

sincerely,

Erie, Pennsylvania's Betrayed child,

Ricardo Noble
