

At present I am in a super Max - SHU unit under (O.S.R.) other Security Risk  
I have never received any discipline for any of the activity I am being held  
on. I am held in "Lockdown" for alleged trafficking of contraband but have  
never been charged, wrote up or accused of said activity. When I  
inquire I am told it is confidential information that can't be  
shared. Another words I am not allowed to face my accuser or  
even know what I am being accused of. However this "Lockdown"  
came at the time I was filing grievances, and property claims and  
I was threatened by administration over my political activities  
such as ~~and~~ but not specifically corresponding with A.P.W.A.  
and other organizations dealing with issues related to  
the P.I.C.. I am aware that prison administrators  
are not happy with inmates that expose abuse or  
assert rights that are being denied, A person who  
does not have a support structure on the other side  
is putting their very life at risk by engaging in  
such activities. Please be aware of all the risks  
that prison activists take to get the truth outside
