

7-4-15

I am Hector Ortiz 85505
This is my summary of my
story, in the state of New Hampshire
I was accused, indicted, arrested
and brought to trial, for crimes
alleged that were 16 years old,
with out DNA, without eye witness
corroborative testimony, and
unreliable states witness, telling
in consistant storys of alleged
events that the state alleged
happened 16 years ago. I
have been incarcerated approximately
6 years I have a habeas corpus
on the sentencing part of my
trial, as I was sentenced 15-30
years, then after case was closed,
and I was given over to the
custody of the Sheriff. The Judge,
Groff, decided it wasnt enough
time and had ordered Sheriff
bring me back into court and
sentenced me again to 25 to
50 years. I Am in N.H. Federal
District Court now on this fully
exhausted issue, is this allowed
in U.S.A. that a man can be
sentenced 2 times for the same →

alleged conviction? I have a friend help with getting Heber's Corpus in before 1 years time limit, and to exhaust the issue in State. The state at my sentencing did not object to the 15 to 30 year sentence everyone was in agreement and case was in fact closed.

IF we Defendants dont object to something at a hearing the state of NH repeatedly says the issue is waived, Failure to properly timely object to the issue at time it happens, state does not allow you to raise it again later. I work in industries and am married, I would like assistance in being heard so I filed this to you in hopes, my story will be accessible to everyone. Thank you Hector Ortiz
