

"Gone and Forgotten In the Uncivilized World"

The system can be very inhumane, and what you don't know can hurt you. The jail's and jailer's District Attorney's all work together. There is no structure and often the place makes someone feel like their feet have been yanked out from underneath them. The system does use a unconstitutional power to manipulate for convictions. It's degrading the way the system does use mock torture. Then constitutes coercion's through impulses. I'm currently serving a life sentence with parole for 1st degree murder. I'm here to tell you like this, who is monitoring the monitor's. From Bowie Co My hometown of Texarkana. Up until only a couple of years back that question's ~~was~~ answer was nobody right no-one. The system has violated my constitutional rights the 8th and 14th amendment often and has even worked corruption of blood for convictions. To make one feel helpless, and like there is no where to turn for help. Like a

Deadend. Like the only option is to sighn this is the politic's, and they use their leverage. My reputation has been made to be the "Lone Nut." Just like Jesse Ventura goes into detail about his conspiracies theories. It's quiet coincidental now the Ex-Governor of Texas Rick Perry has been indicted for constituted coercion's. -I was set-up by a consipary a political conspiracy. I was held captive like some kind of prisoner of war. I never agrants an accused have more overwhelming irregularities been committed. I as the defendant have been denied even a look at the indictment until after 3 years of incarceration. As the accused I have been held in solitary confinement, and had cruel and unusual punishment inflicted. I have been shut away from the law library. In violation of every legal and human consideration. I have ^{been} deprived of good legal advise and manipulated into playing their "Lone-Nut" Role that goes along with their plot. The Bar Association of Texarkana, TX appointed an incompetent jurist with a conflicting conflict of intrest. I consider it essential to explain at the outset the reason for the relentless isolation to which I have

have been subjected. What the motive was for keeping me silent. What prompted the plot to kill me. A plot to win the court is familiar, what grave facts are being hidden from the people. An the secret behind all the strange things that have taken place during this trial. All this I propose to do with the utmost clarity. ~~the~~ ~~the~~ the courts and media have publicly called this case as being high-profile. If ~~you~~ ^{they} sincerely believed so ~~you~~ ^{they} should not have allowed the trial to be degraded time after time by the flouting of their authority. While I the defendant was under arrest for many years while suffering all kinds of outrage and abuse in the chambers of the repressive organization I the defendant now have endured the most cruel the most inhumane oppression in the last two decades. The defense counsel devised a plan to eliminate me from the trial and proceeded to do so by not presenting my evidence favorable to the defense. Also by not doing simple internet research, that proved mal-practice and reeked of political violence and corruption involving state officials. It's relevant and coincidental also on the contrary of the state that the Ex-Governor has been indicted on charges of constituting coercion's. And abusing the power of office to ~~use~~ ~~use~~ use the veto to cover up the corruption involving state officials. The repressive organization kept me away from the trial by open & shameless incompetent to stand trial when really I was deprived of competent assistance of counsel. As the evidence presents itself, and also as things progress roles will and have been reversed those who came to accuse will find themselves accused, Their lust for power. My medical records from two emergency rooms prove of mal-practice. One of my book in pictures I was losing consciousness, my eyes were rolling in the back of my head. All this can be seen in the Texarkana Gazette. The incompetent counsel never presented my medical records until two weeks before trial.

● Also in the Texarkana Gazette an article states, and headlines Strickland says no to plea for life will face jury trial. Then the day of trial. My appointed jurists used cutting edge leverage for the prosecutor's to work a conviction. It was an involuntary plea, for one the state used the length death penalty for leverage. Then with held my evidence so I couldn't find a attorney. Also my counsel explained in the motion to change the venue that everything had been in the defendant's favor. The exact words were, Specifically: there has been extensive local media coverage, creating influences in favor of the accused. Further the alleged victim in this case was a Bowie County, Texas Deputy. This is absurd, inadequate, deficient, and causing prejudice. It's unethical, and male-practice from the appointed attorney. It's also proving he wanted the defendant to lose.

● Also it's one thing for Correctional officers to be hardened by their superiors, and to disregard compassion: treat inmates as if the inmates are connected to a criminal enterprise. Then it's another for them to have the Superiors willing to go down and take the fall for their corruption. So now the question is who are connected to the criminal enterprise. As of now eyes maybe opened to see that the roles have been reversed those who came to accuse are finding themselves accused, and pulling political strings to cover up the corruption. All for their lust of power.

The End.
