Now in prison right along threat group & gangs. I set in my cell dealing with the symbolic black mail of the African American Culture. Now the punishment & indure in here. Pertain equivalent to a civil war reenactment. Everyday threat of retaliation, along with slander, and discrimination. Then the misuse of the judicial prison system in means of extortionist. Using unexcusable methods of collection from tools involving. Wrongful punishment. Coercion of violence. Intentional infliction of mental suffering. The reverse psychology from the resented group think of symbolic fens who are addicted to being symbolic. All the pressure from the State trammeling my progress down. The racism of everyone of these sorry pathetic symbols. Making bad calls constantly. The racism from this country makes me ^{never} never want to play-ball for this country. Or anything involved in the Olympic games. The extreme measure African American / Mexicans go to historically claim. Offended. Especially the African culture that symbolically appraise Rubin Carter who never left his cell because of threat of violence. Then Nelson Mandela who is appraised for threatening the lives of the Country of Africa. But was housed alone safe where no offender could even have ties to the Spoiled Deranged mad man. Who had his wife stay by his side for 27 yrs, dragged her through meseary. With infirmary, then the first thing he did free was divorce the woman. Who carried and picked up his weight and their children. For 27 years alone. Now with a black African American President. Who we all know as Obama. I set in here dealing with every official in prison rendering, and trammeling the grievance system. Along with threat of retaliation. That is extreme, very un-ordinary. Now I deal with discrimination. An prison officials, group, gang. Who label me as a racist. For a form of conniving, manipulative reverse psychology. Along with corporate crimes that wrong conduct are suppose to hold a value not include organized crime.

Constantly the approval from the others. As a benefiting party go to the extreme to disapprove. As if my weight is the resented hard thing to pick up in basketball/boxing. With the symbolic nature of me being white. Along with basic white slavery, and free labor still going on. Now even with the corporate untouchables who rigidly reflect. Such as Drake, then the passive market Rhinna has too. Along with Adam Levine. With no values being kept for the vulgar threatening conversation these people take to the extreme. On the inside with the other party going along on the outside. Symbolically proving themselves as racist, boycotting their own and masterminds of crime. The gross violation. As I am now victimized. Forced to be housed with violent offenders at G4 level being the best. Then always the weary behavior of all others. Even though their values and conduct are not numbering out accordingly to the attitudes they possess. It is very offending dealing with this infinite game. When at all challenging spatial testing I excel in. An am better in most all. Including quarter mile racing, basketball, "pound 4 pound boxing", ~~baseball~~. Those are the ones that are not hobbies. Hobby wise golf, baseball, handball, ... then too. Now I stay forced in here. For racism so I'm not symbolically approved for these things I can do. For why is it that these symbolic history sympathy cases were treated so ideally perfect. One Madelon the biggest threat, babied, and nurtured. Alone were no threat could pull, and threaten. Then why am I leaned on like Rubin Carter who wouldn't come out of his cell for fear of violence. But yet still punished by officials wrongfully with every altercation. Giving who the upper hand to manipulate? Very rigid. While I'm leaned on by Rubin Carter then deprived and manipulated by prison officials. So I never seem symbolically dominate. In my dominion domain. Now has is this symbolic nature "Fun" ?? I Ask ??
