## QUESTIONS & ANSWERS

Q: Honest Willie, man my Moma just recently asked me about an article she read in the in the Charlotte Observer November 28, 2013. It concerned some prisoners being on lockdown for attacking an officer. Why does she immediately think that the prisoners were the cause of what happened?

AFTER the last medium costudy add on facility is complete. All close costudy facilities will go on lockdown due to gang violence. The only problem that I see with this is, EVERY body in close costudy ARE NOT gang members, alot ARE victims of gang violence. North Carolina made a very bad decision when they mixed Security Threat Group Prisoners with the general population of prisoners. That's when North Carolina Prisons became Recruiting grounds for Security Threat Group Prisoners. WE CAN'T BLAME ONLY the prisoners but also the prison administration for orchestrating the monstrous conditions of confinement.
