

# POWER THAT UNLEASHES THE EVIL IN YOU

A thesis by John W. Banos

It took me about three months of intellectual searching, so as to discover a title, for this superior writing that will enable it to captivate the essential and intriguing diabolic factual aspects of it. So on August 15, 2007, i was finally able to discover it.

When i was a lad, due to a lack of knowledge and understanding a very well created false illusion was implanted into my subconscious mind by T.V., and as a result of this sinister agenda, i would vehemently defend my government when ever someone would accuse my said government of being corrupt.

But then destiny would find me worthy, and gave me a crash course in reality. And so, i want to extend and offer my upmost and sincerist appreciation and thanks<sup>1</sup> to all TDCJ-CID employees, and specifically, i want to thank all CO's, Supervisors, Wardens, Regional Directors, Directors, and Executive Directors, for shattering the false illusion and vision that had been created in my mind, and shined a light to expose the dark vile truths about my said state government here, in the Lone Star State of Texas.

For y'all have taught me that not only is my government corrupt, but that it is very sinister, and that the Texas government is far more corrupt, and evil than the one that the Contintential Congress declared war on against in 1776.

Initiatally, i had wrongfully concluded that the said above state government employees had decided to abuse and mistreat prisoners as a means of making them pay, for the crime that they had committed. But as i progressed on my intellectual journey through the concealed land of state government corruption, i came to realize that, i had made a very

gross, and incorrect assessment of y'all's characteristics and motives. So i beg that you forgive me, for judging your diabolic intents incorrectly.

But now, me as an individual, if i have a dislike towards a certain group of individuals, like for example, those who worship Satan. Then most assuredly, i will not copy cat any aspect of their Satanic behavior and conduct, because i detest them.

So now, if the said state government employees really detested criminals, and if they had a single scintillating of moral values and integrity, then naturally you wouldn't commit any crime, and you would be a 100% law abiding citizen, and under no circumstances whatsoever would you "Copy Cat" the convicted felons behavior and conduct, because the ends never justifies the means.

But also there is another relevant and interesting subject matter, to consider that is an important factor to this. And that is, pursuant to the TEXAS CODE OF CRIMINAL PROCEDURE when ever you commit a crime, whether it is a misdemeanor or felony then you have committed a crime against the peace and dignity of the State of Texas.

So see, you don't dislike criminals at all whatsoever, because the Galaxy of facts, and evidence proves beyond a preponderance of the case that you are criminals, but that simply who are employed criminals of the corrupt criminal State government of Texas.

So it was in my study of history that i dicovered a tomb of factual truth that provided me with the clues that enabled me to comprehend, and understand the nature of you ones, o'le sinister ones.

Now initiatally, the training<sup>2</sup> that you prison guards received by TDCJ-CID skillfully picked the rusty lock with masterly skill that was encased on your heart. But it also ignited a cold ember of diabolic desire

in you that leaped so high that it touched the stars of heaven, and it spread so fast throughout your body that it left you breathless and dazed.

And now you was able to unleash your diabolic hunger and greed, so as to gratify the evil longing and burning that resides in your heart that was unable to be set free at a much earlier time, due to the secured prison of circumstances that you found yourself in. But once you knew that it was A'OK to harass prisoners (spitting on them), and to lie on them (write a bogues case), and when you perceived that the prisoners were vulnerable, and defenseless against your malicious evil, OH MY, the evil that inhabits your diabolic heart, it leaped for joy, and let out screams, and shouts that sounded like a chorus of demons that were screaming and shouting with sinister bliss as it was on, the day that Yahshua was crucified on Calvary.

I did a tour of duty in Ad. Seg. for ten years, so i was kind of secluded from being able to experience and observe, the psychological criminal actions committed by the above said Scumbag criminals, on a broader level. But now, since i have been formerly on the Allan B. Polunsky Unit in Polk County, Texas from August of 2005 to 2010 in population that i was then able to observe it, and study it, and analyze it under a magnify glass of intellectual honesty. So as to learn about the parrasite criminals at a more indepth level.

Though sincerely, i have a confession to make to everyone that is of significant and intriguing value to this story of vile truths. But i do find it immensley, and very amusing. Because there are innocent men here in TDCJ, and nation wide 250 prisoners have been exonerated by DNA evidence who are innocent. And yet, you sinister prison guards every single day of the year are committing criminal offenses as, if it comes very natural to y'all just like breathing does. And in TDCJ guards have been committing every

crime there is, from child molesting, rape, petty theft, murder, dealing in narcotics, cell phones, tobacco, assault, and falsifying state government documents, etc, etc..

Now this next intellectual-gratifying, and stimulating truth that i will describe, i find it even more amusing then my previous delightful one before mentioned herein. And that is, that i have noticed how emotionally agitated y'all get when an innocent man, specifically (yours truly) has the courage to expose you for the crimes that you commit. I picture you gray sharks faces turning beet red, and you are clincing your hands into a fist, and you stomp your foot on the ground, and you scream loudly, "How dare that criminal expose us, for the criminals that we are!" Ha, ha, ha, ha. Oh that is such a very foul and drastically bad deed that i have committed.

In studying the history of my caucasian ancestors in Europe who were Kings, Lords, Earls, Barons, etc., i took specific notice that once they obtained power over the peasants, and upon them perceiving that the peasants were vulnerable and defenseless. It unlocked the evil that was imprisoned in their heart, and so, once it was set free, the peasants were murdered, or tortured, had their property stolen, and had their rulers lying on them at court before the judge or king, and they did it so as to gratify their fiendish thirst and hunger even if it meant disobeying their own laws, and their honor and integrity.

The state government employees are running an organized criminal operation that is under the guise of criminal justice that is the Texas prison system.

And right now TDCJ-CID is 10 BILLION DOLLAR'S in debt, because they have been stealing tax payers money. And so basically, what we have going on is that tax payers are paying the TDCJ-CID employee criminals, to keep locked up the John Q. Public & Jane Q. Public criminals on the false pretense of

keeping society safe from criminals while the government criminals are stealing the tax payers money, etc., so one group of criminals are being paid to watch over another group of criminals.

#### CLARIFICATION

I do realize of course that some of your state employees, judges, prosecutors, police officers, politicians and TDCJ employees have not abused their official authority. And that they are decent people who are simply caught up in the sinister web that has been spun by the master criminals in the government. So my comments are not directed at you directly or indirectly.

1. I also want to extend my very deepest appreciations to all of you evil and sinister judges, prosecutors & police, and of course you corrupt politicians. I have learned a lot from Satan's children. May Yahweh execute judgment on all of you very soon.

2. All potential TDCJ employees are given the following Catch 22 proposal:

"If you are walking down the run with your co-worker, and he walks up to an inmates cell, and starts cursing him out, and spits on him. And then writes a disciplinary case on him saying that the inmate cursed him out and spit on him, will you lie for your co-worker?"

This is a prerequisite that the employee must meet to be qualified to work for TDCJ-CID. And anyone who doesn't agree to lie for their co-worker is automatically disqualified from working here. A fellow inmates spouse applied for a job here, and was given that Catch 22 proposal by a Sargeant, and because she is a christian, she and four other christians told the Sargeant that they wouldn't lie. So none of them work for TDCJ-CID. I have left out their names so as to protect them.

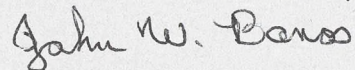

I have litigated over thirty lawsuits in the state and federal courts here in Texas since around 1992. And everyone was supported by law and facts, and court case rulings. But yet everyone of them was dismissed as "Frivolous."

And i want to encourage everyone to get a Black's Law Dictionary, and read the word "Legal Fiction."

Also, if you want to read about my criminal conviction then i would encourage you to go to Prisonsfoundation.org and read my novel that is nonfiction that is titled "Enemies of Justice."

I would also encourage you to read "Convicting The Innocent" by Brandon L. Garrett.
