'LIFE INSIDE THE PENITENTIARY'.

WELL FIRST we all GOT to come and BELIEVE that we ARE all HUMAN NO ONE is PERFECT. SO EVEN by OFFICERS HAVING A Badge OR MORE POWER than us INMATES" that doesn't mean that there BETTER OR PERFECT than us. IT'S SO much that GOES ON behind these walls" but EVERYONE ON the out side looking in Always Assume it's the inmates. Some of our ACTIONS is behind what A OFFICER say OR do to us. FOR 1" being locked up is not a NORMAL thing. Being in A cell 23 hours For years will drive anyone INSANE. we share toilets, take showers with our boots ON, Have to sit a certain tables, And ETC. This is A WAR ZONE in HERE. NO ONE knows if they will live to see ANOTHER day. NO ONE looks At us in A good way" But most of the talented, Smartest men in prison are locked up. Yes we made mistakes" But also people

in the real world also do to. So is it RIGHT For us to
Judge them. Some men in here will never see day light, And the
judge that gave them the time will either be dead or retired in 20
years. It's NOT FAIR to give 10% of us all this time Especially
1st offenders like me. These prisons Are so over crowded because most
of us don't need to be here. Just like me im doing 18 years For
giving A Friend and his girlfriend A Ride" which they was getting
Set-up by the Fed's so now im in a conspiracy. I mean honestly,
did I really deserve that NO. It's hard to Find people to Fight
For us. But As you read alot of papers it's been alot of officers,
being Fired, prisons being Sued, And treating us wrong. But they get
treated better than us. Now don't get me wrong it's alot of good
officers that come to do their job" And they're alright. But the ones
that does extra things" Always have the problems. We need to Find
justice some way. It's nights I Have to sleep with 1 eye open" you

NEVER Know who may Run in your cell. So IF I defend
myself And Hurt Him" I still get punished. The politics in
prison is the worse. It's just much I CAN REALLY SAY" even
was writing you. All I Ask is For" Justice" And more
people to listen to my story and you will see a different
out look of us men in prison. Please reach out.

THANK-you.
