Re: My thought on Mayor De Blasio's
announcement to close Rikers
Island in 10 years to build more
Jails.

One thought I have about Mayor De Blasio's announcement to close Rikers Island in 10 years, to rebuild more Jails is:

The sad truth is, the Government in the name of security exploit and manipulate, and create need, and false needs for a reason to spend tax payer's money to build more jails and prisons. If you take a deeper view you will realize, ~~that~~ this government, chase after a problem to resolve, in which they, create a needs for more prisons, cops, guns, etc to put out the exact same fire in which they promoted and started.

For example, when Governor Pataki was in office he, criminalized marijuana as

(1)

a dangerous drug which causes violent behavior, to cause the population in state prisons to expand from 65,000 to 80,000 inmates, and thus created a security need to build many S boxes and prisons, including upstate Correctional Facility, and Five Points Correctional Facility.

The government survey and count the population by a census to determine the needs of which way the tax payers money will be allocated and ~~and~~ implemented. Its clear that the government with all its intelligence and great resources seems to merely recognize the needs for more deadlier weapons to be used by the police and ~~the~~ the need to build more prisons. The don't recognize a youth as myself at the age 18, who worked jobs, didn't do crime, who is poor, with a learning difficulty. I had to drop out of school in the 9th grade because, I was failing, I was left back once in the second grade, and was being left back in the 9th grade.

I was a child left behind. A child left behind, is most likely left behind to —
②

- Poverty, drug dealers, pusher, Jail, Prison, HIV, prostitution, crime, violence, abuses etc.

I earned an insufficient pay of \$80.00 per week working at Burger King. The Government with all its great resources to build prisons and jails, would have benefitted more, by paying me \$80.00 to \$100.00 per week to remain in school, esp when I was a Special education Student, with a learning disability, and failing significantly.

With the government, its either too high or too low. All of nothing. They will deem a child imperfect and dispose of all his potentials because of one area in which the child is failing. Thus way me and many children are badly neglected, in a time of Aids - HIV, crime, crack and other drugs and Perils.

I was severely abused as a child. I was falsely arrested at the age 14, and jailed 3 days, in a cell with one sink and a dirty toilet, and approximate 25 other inmates arrested.

At the age 12 I was almost raped by an older male. I was spit on, cut with broken glass, kicked, stomped, jumped, punched and slapped in my face. I was also un-loved and rejected, and treated as lessor by my peers. These disturbing events traumatised me.

Whats worse is being placed on Bikers Island, in which I woke up each day to a continued nightmare, of have lit burning match sticks placed in between my toes at night in my sleep. I wake up many nights and the prisoners are fighting with razors, Jail made shanks etc. There was days in which every body in mod 9 on Bikers Island had to break night 3 straight days with no sleep. The tension was so high. If a man fall a sleep someone will cut him with a razor, or stab him in his sleep. It was a nightmare in which you had to fastly adapt to and stand up.

I met a lot of cool humble good natured brothers back then. We had to stick together. Either that or for your food, phoning time, sneakers etc.

you up, set you up with a weapon.
to enhance the time you remain in
prison as an abused slave.

Its also a catch 22-double edge
sword, because, eg. when a man like
me is trying to make out on parole,
this is when other Prisons want to fight
me, others want a mans will. They want
you to be a yes man. They try to
impose a culture on a next man, with
Jail politics. To run extortion, friendly
extortion etc. I witnessed this many
times. This is how another man becomes
another man girl toy in prison or even
out of prison. Men attempt this all
the time. It starts with begging.
or someone will give you something,
may coffee, food etc. That is a
revolving open door, in which they
give, and try to receive 9000%
return, and some times sex.

When a man see that another man
is attempting to put pimp-extortion
pressure on him it usually leads to
Violence. These myriads of things
occur while the government oppress you.
~~If~~ its not an inmate oppressing you, its
the officers. This drives a man insane.

The unseen truth is, that being black and or poor, is like being in a crab barrel, and trying to escape this nightmare, and the government kick many people back down into the crab barrel. The government tactics are to keep us stripped in many ways, financially, uneducated, defamed, persecution, etc.

The government paint the whole picture black, with a black prumption, that, your a criminal first, because your from a black neighborhood, your poor, you the same as any person living in the Bronx county. You a violent drug dealer, who will rob, steal and commit crime. They oppress many including my self, with injustice, inequality discrimination, abuse, and torn us into the person they prejudged us to be. Next they use it as a factor to justify the continued abuse.

Whats worst is they install in us that you don't need, money, a wife, kids, a job, love. Also they install in us that its okay for the police to kick your teeth out your mouth, abuse you beat -

I always wondered, and wanted to ask "How can a man be so hard and so cold" They say "your not buildt like that, your not about that life, your butt soft, a punk, a herd etc"

Another question which pounds in my mind is, how can you rehabilitate a dejected, neglect^{ed} child, who suffered all sorts of abuses. I never was rehabilitated in the first place. I was a deprived child. Its common sense, that you can't rehabilitate a child who was abused, with abuse.

While the government is oppressing you, you have a inmate trying to buy blood from another inmate who has hepatitis C, to ^{are} poison another inmate with a disease. We trapped between a corrupt government and criminals. These are my thoughts. I hope you find them to be helpful, thank you and take care.

Respectfully
Prance
