Human Nature?

Things I've learned from my Pop's and growing up "Human Nature"; He always told me and my 3 brothers "Sattias Callen" "By there self's they fall" something he believed in and something I live by. We fall as we come to are own actions or beliefs, I learned this along the way, I've also learned or live by these certain rules of life, Never argue, Never complain, Never lie, Always humble yourself, Rely on what you know and nothing else believe it's not these things I've learned helped me to over come alot in my life I'm going on 21 years in custody and counting not proud of it and these I's some regret but I did what I did and I've done my time, I've been up and down California Prison system even to Texas Department of Criminal Justice, S.H.U. and level 4 living with alot of Ad-Seg time met lots of people from all areas of California, besides wasting my 20's and 30's I learned alot about people and myself and why we do or fall right back into what got us here besides drugs and necessity, Spitefulness against law enforcement believing it's them to blame

Although some have been wrongfully accused of incarceration, others haven't, I know why they know everything else done to some of our Secret Service, Satellite invading the sphere of the intellect, Military tactic mind reading technology used to control and manipulate using signal to the brain. The brain runs on 9 volts of electricity and conducts this signal after 39 years I'm now aware of this technology hard to believe I'm as was that important to F.B.I., D.E.A. and A.T.F. this technology is called Census Deprivation an illegal practice not to be used on civilians or P.O.W.'s these are things I've been through in the 39 years I've been on this earth and have brought me to write about my experience my goal with this short story is to help you recognize certain things we over look or pay no mind to in our everyday life what I believed to be mental illness does exist, noise over the airwaves also does, what I believe to be hearing voices was sonar technology vibrations or a electric signal bounced off a metal surface or conductor, that little voice

In my head wasn't my other ego
 but a signal from a satellite although
 it's hard to believe the technology it's
 old here's what I know the satellite was
 Russian then Japan's it was used in
 Pearl Harbor to control suicided bombers
 not remote control planes, then Saddam
 used it to control and push his beliefs
 suicided bombers then the United States
 confiscated it, but now it's banned to use
 Guantanamo Bay, Cruel and unusual
 punishment, although it's always been
 used, it's now being abused to control
 and manipulate citizens of Kern ~~County~~
 County, back to my book except how the
 verse come abuse of power. Psychology
 and Psychiatry "Human Nature", I grew
 up catholic, then christian, then Mexican
 those are my religious beliefs but I've
 learned never to push my beliefs on
 anyone the same goes for politics. it's in
 my nature to learn, even though everything
 I learned I had to figure out on my own
 my Pops was a big factor in my life and
 when he died Sept. 14. 2005 my life chang-
 ed like I said he believed by these selves
 we all fall, I didn't know what he meant

till later in life I would just stare
at him and agree to disagree, I even this
saying play out so many times I can't count
it I believed it to be Karma or the Cosmos,
I now believe it to be the Satellite that
makes things happen either for good or bad
for every action there's A reaction or was it
man made? Some thing I now call the
question due to me knowing what I know
about "Secret Service" and the technology
once used on "Thumans" I learned people's
actions are not always there own or A
super natural force some are not conscious-
ly aware of things done At the spur of
the moment, moments of unawareness,
when you can't recall A action or event,
momentarily blindness, So caused by rage
or sudden action or danger, Or could it be
your heart responding to the cause of
action High blood pressure what ever the
cause keep in mind the Satellite invades
your six census, even blood flow and
heart rate by electrical signal, Man made
or mental illness? It's for you to come to
terms with or decide, for me it's A
combination of both A signal sent to
me by Satellite and A choice, consciously

made, the temporary blindness, I can't figure out, it's not my subconscious cause I can still hear and remember the lights going out, I just can't see maybe I closed my eyes tight. Irrational reaction to loud noise these things I've learned by going through them my Pops made me figure out every thing myself by not telling me the answer but the wrong one or contradicting his self for instance he told me he hated liars but told lie after lie or as he called it exaggerated. So now I hate liars and only tell the truth due to my decision not to be a liar, I now believe he led me to that decision consciously by making me aware people can tell when you're lying just like I could tell, I've also learned never complain due to people already knowing what they know and it's not being kind or polite to go against some one's belief of what they know, it can cause confrontation or disagreement better to not say nothing and let them learn for there self the same goes for arguing can cause discontent and not only it's a waste of time but of energy for alot of people it's a way of communicating these point of view

to others, not only els etc guide but can
 get you more than what els worth. Assuming
 ing els also some thing that's not good the
 come across several of those although
 the world revolves around you every one
 elsn't aware of that. As for my Kaurimo els
 the total opposite and if you were to
 see her or knew her you would know
 why etc doesn't apply to her, but for
 others. Assuming could be caused by
 egotism, the belief that the whole world
 els against them or watching them etc
 manifest etc self as a mental illness
 or by guilt, deceit or a lying ~~own~~ tongue,
 Maudsious Ego, Super ego are also
 causes, be aware that people who ~~assume~~
 assume can strike at any moment ~~physical~~
 physically or verbally, schizophrenic els
 also a cause the belief that every one
 els talking or plotting about you, Very
 dangerous to be around try to stay ~~away~~
 away but not ignore, Being Humble has
 helped me out with 90% percent of my
 problems els not easily learned and
 has taken years to practiced especially
 in prison were els fight first talk
 later I had to learn how not to react or

overzealous don't get me wrong.
 when confronted with violence there's
 no other choice, but for those who don't
 approach with violence it's best to
 humble your self. No ones life is worth
 yours especially over these misunder-
 standing or beliefs of the truth, don't be
 quick to judge but listen to there words
 and body language it can save you A tip
 to Ad. Seg or the S.F.M. but what ever you
 do humble your self let them do all the
 talking after all it's not you with the
 misunderstanding until they prove
 there point don't judge or come to a con-
 clusion, He might be right or she might
 be right most of the time Shes always
 right, Humbleness can give you more
 understanding like listening, being
 open minded is also helpful even
 though people know what they know you
 can always learn some thing new, A closed
 off person most of the time does nothing
 but disagree and argue, stubborn not
 giving when it comes to a relationship
 or friendship thinks every one owes
 them and isn't pleasant, Greediness
 is also A sign, Boastful, overzealous.

Open minded people are there
opposite and are fun to be around
especially in bed these personalities
are giving, well liked and always
willing to have fun free spirited and
enjoy meeting new people they let
these self's be led to a certain point,
These usually smarter than what they
let on Un-like closed off people as argu-
mentive they never seem to get the "Hint"
they are uncomfortable to be around and
are hard to look in the eyes unlike my Karina
who I can't help but to get lost in her sexy
brown eyes full of emotion and life the kind
that melted my heart with one look I thought
her gun was dangerous till I seen her thighs
I hope she gets the "Hint" just like the slip
of the tongue it always reveals a persons
true intent especially coming from a woman
like my Pops said *La lengua castiga* the
tongue punishes but also can soothe when
with the right woman. My Pops taught me
 alot about woman he was a pornstar a
womanizer did what he wanted with them
and made me the total opposite, I asked
myself why these beautiful women would
let these self's be treated like that I

would do anything for them put bullets
in who ever, made me A lover of women A
ladies Man I'm now understanding why I'm
grat As violent As him but for different
reasons alot alike but way different I
learned to respect him late in life still
learning from him and understanding women
aint As helpless As I thought them to be
women learn early in life how to get there
way, they have some Men At there feet
willing to prove there Man hood for those
thick sexy legs and beautiful eyes with
those eyelashes and beautiful smile, I'm
the first to admit to fall prey making me
wonder what stronger me as her smile, So
you can see how women make me feel A
wave of emotions controlled by you so
much power was given to them to control
and manipulate me in every way as I's
it just your beautiful face that God
blessed you with since the topic I's woman
I can't help but to praise you I'ts "Human
Nature" for A Man to want A woman and
make her his, besides physical attraction
some buy them gifts As for me after there
done fighting and giving them gifts, I give
them A wet french kiss on there lips, I've

been around alot of porno star females
so I know what they do. Besides keep
secrets from their boyfriends and girlfriends
once in a while you find one who tells the
truth its very rare they all cheat and if
they say they dont thats the worst one,
every Man wants to believe they dont, so
every woman takes advantage of that Men
are victims of there pride they believe no one
can love them like he does but what I
learned from woman is just like we like
more than one so do they its also much hard-
er for A woman to orgasm leaving men
insecure, and inadequate and defensive
with bring's me back to my Pops and me
thinking women are defenseless, I believe
now the reason they always come around
was they were willing participants living
the same life style I still feel the same
when it comes to women I still will do
anything for them what we dont know wont
hurt us, or what I do know wont hurt me,
when A woman's truthful I find my self
more comfortable and able to enjoy my-
self, But for most Men they find it upset-
ting, and become angry, As for me sex is
some thing to enjoy and be open about

especially with the opposite sex, if
A woman doesn't give her self completely
she isn't yours and she's hiding some
thing, it can go on for ever speaking about
women and how they make me feel doesn't
mean they feel the same, but it also
doesn't ruin my love for them, after all we
only allow what we like or want, just like I
said the truth is beautiful and a lie is ugly.
You feel cheated, and you will spend the next
couple years trying to get the truth, but for
some it's the opposite you'll spend the next
couple years trying to hide the truth, Not give-
ing your self "completely." For me not worth
it. The truth is women are beautiful and
A relationship is what the 2 of you put into
it, Love is only fun when it's returned.
It's not fun being the only one in Love, it's
not to understand but it's what I've been
through and A real relationship is some
thing, I've never had, For me it's not possible
living the life style I live, So I'll take
what I'm not suppose to get.
