ESSAY ON INMATES WITH CONTAGIOUS DISEASES,
ETC. WORKING IN FDC CHOWHALLS HANDLING
FOOD IN VIOLATION OF STATE AND FEDERAL HEALTH LAWS

PRIOR TO MY MARCH 17, 2017 TRANSFER TO TENNESSEE DEPARTMENT OF COLLECTIONS (TDOC), I WAS INCARCERATED IN THE FLORIDA DEPARTMENT OF COLLECTIONS (FDC) FOR APPROXIMATELY 17 YEARS.

DURING MY YEARS INCARCERATED IN FDC, I PERSONALLY KNEW DOZENS OF INMATES WHO HAD BLOOD, SKIN, AND LUNG DISEASES, ETC. WHO WORKED IN CHOWHALLS HANDLING FOOD AT NUMEROUS INSTITUTIONS IN FDC. SEVERAL OF THE INMATES HAD HIGHLY CONTAGIOUS BLOOD AND SKIN DISEASES, ETC. FOR INSTANCE A LOT OF THE INMATES HAD HIV, HEP C, SCABIES, BODY LICE, AND STAFF.

FDC ALLOWING INMATES WITH THE ABOVE TYPES OF DISEASES, ETC. TO WORK IN CHOWHALLS HANDLING FOOD HAS AND IS

CAUSING INMATES AND STAFF TO CATCH THE DISEASES,
ETC. THAT A LOT OF THE INMATES WORKING IN THE
CHOWHALLS HAVE.

IF YOU GO TO THE OFFICIAL INTERNET SITE FOR THE
FLORIDA DEPARTMENT OF CORRECTIONS, YOU CAN USE
THEIR SEARCH ENGINE TO RESEARCH THE RULES AND
PROCEDURES FOR "MEDICAL SERVICES" IN FDC. THE
FOREGOING WILL SHOW FDC DOES NOT TEST EVERY
INMATE WHO ENTERS FDC FOR CONTAGIOUS DISEASES.
FDC RECORDS WILL ALSO SHOW FDC HAS BEEN
ALLOWING INMATES WITH CONTAGIOUS DISEASES, ETC.
TO WORK IN INMATE CHOWHALLS FOR DECADES.

FDC IS VIOLATING STATE AND FEDERAL HEALTH LAWS
IN DOING THE FOREGOING. ALL FDC HAS TO DO TO FIX
THIS PROBLEM IS HAVE MEDICAL BLOOD TEST ALL THE
INMATES THEY ASSIGN TO WORK IN INMATE CHOWHALLS.
