The courts in New York State
has slavery oppressive rules
in the courts in all jurisdictions.
Rules such as, the court's will not
entertain a motion, appeal, or
writ out to the courts, whereas the
Defendant filed an appeal or
motion too late, or did not
mention a ground of claim in a
first motion or petition.

The court will painfully allow a person
to suffer or even die in prison,
and ignore the rights and innocence,
and suffering of a person. This
is inhuman, and these are real
people lives your dealing with. This
is not a monopoly game.

① See over

Its nothing less of cruel and inhuman to condemn a man/woman based on a side door rule which would cruelly allow the court to not hear and consider in no form, serious issues, such as, being abused as a child, to the point it caused him to become emotionally disturbed snap out of a loss of control, and to ignore the mental state and level of criminality, and culpability in committing the act, and to ignore and instantly dismiss violations of the 5th, 6th, 8th, 13th and 14th Amendment constitutional rights. That is basically taking it to the street with no trial, no judge.

That's functionally the same as the Police slaughtering a person at arrest. That's shooting first and questions are secondary. regardless if a person has or didn't commit a crime, or him being innocent. ~~That's~~ That's running every red light, to put a person in prison for life without a trial to determine -

and investigate into the cause. This injustice, will allow the government to smoothly create criminal. Because its like smuggling drugs into the country, and by that same drug smuggling hand its passing customs without inspection.

Its also like allow a problem, within a culture to worsen, without slamming the brakes on it. Its like ignore a contagious deadly disease, allow it to spread.

you get receive financial support from the government-use of tax payer's money to serve and protect the public. But what the courts did is create a zombification. you took no corrective measure, nor to deter a repeated culture. you fueled the problem, and kept the pit full so that more children can be caused and become a person who make the same mistake. instead of seriously investigation, and give prevention education and awareness, which is in human

3 secret prone

Too late for justice for all
for an abused child

Its unfair!

I worked for Danmore Printing Company, Superior Messenger Service, Burger-King, Summer Youth, and Dagostinos Supermarket.

I use to Play music, and Deejay Out in the parks at age 12, I had a 4 track recording studio in my (shaded) bedroom. I cut a rap song at the age 14 see (find) K. D. Nice, Total Control, or Get up YouTube.com.

I did not do crime. The court exploited only the negative evidence, and the act itself to indicate my guilt, but ignore all the positive innocent evidence and facts. to direct a guilty verdict of a non existing crime charge, and unduly took a presumption of guilt, and unduly applied a strict liability, which I could be found guilty regardless of my culpability and quality of intent. They mind as well go back to Whips and Chains.

Prison

Why would anybody want to pay tax money, so the government to hire people who will spend tax payers money to put you in prison for a crime they themselves know you did not commit or betake? Or. Why would they want a police department which allows officers to shoot innocent people died. This is not hollywood. You see that in the movies.

I paid tax money to support people who is going to ignore me as a child, ignore my rights, the psychology, nature and cause of my act, culture, and as to the decent person I am and intended to be without the intervention of being abused, neglected, oppressed, ignored etc.

The nature and psychology of child man, women, being abused, neglected, rejected, poor, oppressed etc must be considered in my case. But the courts tell me its too late.
