

My 1st time incarcerated I was sentenced to death BACK IN 1989, And it WASN'T what I perceived it would be, I'm not a innocent man, But you could say Prison is what saved my life?

Deathrow is located in Texas back then at a Unit called Ellis One, in Huntsville, its not housing General population/ Grad.... its now Under Tdcj-I.d. When I first got there it was Texas department of Corrections.... its now Texas dept of Criminal Justice Institutional division

Deathrow was 1st part of G.P. But it eventually was designated by its self.... Separated... When I first drove up they still allowed inmates to smoke cigarette's and also have pornography But in 1995 Cigarettes were banned Along With us being able to have in cell craft items.... etc...!!

the way the environment was back in 1989, they allowed Death Row inmates to work, in a Garment factory... I choose to for on & off 5 yrs, we sewn officer's pants, our white uniforms, and also made night

WEAR for children At orphanages....
IN 1998 AN ESCAPE OF 7 A/R INMATES
TRIED TO ESCAPE... WHICH PROMPTED THE
ADMINISTRATION TO MOVE ALL 4600
MEN ON DEATHROW TO ANOTHER PRISON
THE CONDITIONS WERE BETTER ON ELLIS
ONE THAN THE NEW PRISON WHICH WAS
CALLED FIRST CHARLES T. TERRELL LATER
IT'S NOW CALLED ALLEN B. POLUNSKY
IT WAS 1999 + 2000 THEY MOVED
US, THE DESIGN OF THE CELLS WERE
NOT MADE FOR LONG TERM INCARCER-
ATION, BEING THEY WERE ISOLATION
CELLS, I-BUNK AND WE DIDN'T HAVE
ANY PHYSICAL CONTACT LIKE ELLIS
WE HAD GROUP RECREATION AND
EVEN HAD THE OPPORTUNITY TO WORK
NOT JUST IN A GARMENT FACTORY BUT
AS SSI'S? THAT STANDS FOR STAFF
SUPPORT INMATES... THE JOB ALLOWED
YOU TO MOVE FREELY... AND IT WAS ON
WINGS THAT OTHER DEATHROW INMATES
LIVED ON THIS WAS ELLIS UNIT, IT
WASN'T ALLOWED AT POLUNSKY... THOSE
CELLS WERE USED A PUNITIVE TYPE CELLS
YOU WERE SUBJECTED TO CONSTANT LIGHTENING
THEY HAD LIGHTS ~~BROKE~~ FLORESCENT LIGHTS

with long term to your eyes can cause problems... to make the light brighter they put a mirror reflector shield behind the four tubes? the pickets also would control the lights... its another method to keep you up and deprived you of sleep... most would spend 24 hours 7 days in a cell like this causing you to have mental problems... I was on Volunsky for 12 1/2 yrs it caused me to get arthritis in my knee's... you weren't given natural sunlight every day...

in 2012 I was given a double life sentence, I'm currently in General pop. I was working in the kitchen but again medical issues has gotten me medically unassigned at the moment... once I get things done I will be working hopefully.

I have more to add, But if possible send me more of these permission pages that I can pass around to others? I like to tell the public where their taxes are

going.... don't get me wrong there is
 some good for prisons, but not for
 where I came from, there is allot of
 innocent people here who get treated bad
 the conditions are bad where I'm at
 I could write a list after list but
 is that what the researchers and
 public want?

Allen B. Polunsky Unit
 3872 FM 350 South
 Livingston, TX 77351

When I was on death row my #000948
 its not in use anymore since I'm no
 longer there, but I left allot of my
 friends + Brothers in White.... You want
 input send them what you sent me?
 I still have photos of myself when
 I'd go to a visit, here to.... photos can
 tell those allot more..... I'll give
 you all my personal info.... I'm not
 looking for legal.....

Thank You....

Sincerely....

Guy-Stephen Alexander
