

"Egyptian Days For One Gallimalphy Enterprise"

If you operate an enterprise built up desiring and getting the gold of Tolesh (e.g. - ill - gotten wealth will do one no good) that's not well with a tinker's damn, you will be a business many consider me touchez pas, noli me tangere (e.g. one not to be touched).

This is what's facing the Kakistocratic Arkansas Department of Correction as it finds itself stricken with one gey case of "blue flu" and inci-

easing inmate unrest at its three largest units.

One of the major factors is rampant correctional fatigue. The "free world inmates" (e.g. ADC employees who, like its former hopes, are constantly exposed to the same machinations the ADC utilizes towards its residents) are fed up with low pay, unprofessionalism, bullying by... co-workers, rampant sexual harassment, illegal black market dealings (such as officers bringing in cell phones, drugs such as powerful designer types like (K-2)) in which many officers

make thousands of extra dollars.

And at the same time, draconian and at times idiosyncratic methods utilized by correctional officers have sparked fastidious unrest at the ADC's three largest units (East Arkansas Unit, Briceys, A. i Cummins Unit, Varner Unit, both of Grady, A. Unrest... has also erupted at the Maximum Security Unit, Tucker, A. in which one inmate was killed).

Of which caused Arkansas Governor Asa Hutchinson and members of the

State Legislature (Ay, caramba! a/k/a
The State Circus) to call out ADC...

Czarina Wendy Kelley, to find out...
what the deuce was going on. Kelley
spoke one justified axiom: "We are
severely understaffed" (Quote/unquote).

Arkansas inmates outnumber free
world (inmates) guards 17 to 1 and its
prison population's expected to hit
20,000 by 2020 or earlier. Gov. Hutchin-
son has flatly refused building
more prisons citing a waste of money
to taxpayers (true). But rather, Gov.
Hutchinson stressed, the chief problem

was obnoxious "get-tough" sentencing
laws that have contributed to prison
overcrowding and the annual very high
recidivism rate.

Juvenal cited it best: "Sed quis
custodien ipes custodes?"
