

I was abused to the point I snapped and killed.

Re: Claims They See No Remorse

Remorse is not something that a person acted out with like a soap opera. A defendant can articulate a display of remorse in court or at the parole board, with crying and the good acting skills.

Remorse is seen in a person demeanor, his/her action, manners, and character. My respect towards, women, and men,

People tried to rape me when I was 9 years old, and 12. I was falsely arrested and jailed 3 days at the age 14. I was spit on as a child, kicked, punched and slapped in my face, cut with glass, threatened and kicked out of camp. with my clothes thrown all over the cabin at 5 years old. I was neglect, unsupported, unloved, poor, called ugly, rejected, deprived, bullied, with no help from the education department, with my learning disability, living in a time of Aids, HIV, crack cocaine, violence

Sings of a remorseful Person

I worked at Summer Youth,

Dommoie Printing company, Superior messenger services, Burger King, and Dagostinos Supermarket. I did not rob, steal nor sell drugs. I wasn't criminal minded. That is a sign of a remorseful person my actions everyday.

People will sell dope, crack, rob, steal and kill another to deprive a another person of their property. People assault, rape a woman or man, and child and not care one bit about it. That's a sign of a person who lacks remorse.

The court said in my "pre-sentence report that I played a complete lack of remorse. However, I turned myself in to authority, took complete responsibility for my act, to be held accountable. Never once did I show intent or a lack of concern or remorse.

The courts and people of the State of New York, never showed, remorse, empathy of any kind of conscious or concern for the disturbing traumatic abuse that was inflicted on me as child. No one stood up to be held —

accountable for what they did to me as a child. Nor did they offer me any support.

Everyone who kicked, slapped, punched me in my face, who tried to rape me, or get me to perform sex acts on them, who robbed me, stomped me, bullied me, all had girlfriends and children, I was outcasted, deprived, rejected, lonely, hurt, and left to fizzle. to the point I became mentally and emotionally sick.

The court only exploited the act I committed, but never examined the root cause of circumstances of childhood abuse.

There's a reason why you can abuse a child, and endanger the welfare, well being and safety of a child. They put me in jail for 3 days, and ignored every other aspect of my life. And remorse was well shown from me in a genuine way.

Furthermore, you can't treat a person

A officer punched me in my face, and
kick me in my back at comstock
correctional facility. Inmates beat me
up, make out on CR date, or max on a
flat sentence, while I get hit with 24
month every 24 months at the parole
board

I told a lady that, an officer beat
me up in prison and go home and make
love to his wife, while I have a hurt
back. She said "a woman can married
and date who she wants"

I did not say a woman was in polygamy
of force to marry or date people not of her
choice. However, I am inflicted with
physical, emotional, and mental - psychological
torment, torture and pain. That is a waister
form of slavery. That is treating me like
a homosexual. I tried to talk to a girl
when I was home. She told her boyfriend
and he punched me in my face.

I witness girls jumping in and out of drug dealers cars.

IN the project housing, I see the bullies rape girls, beat their girlfriends and baby mothers, even tried to get me to perform sex on them. They bullied and beat me up cut me with glass. Also they sabotaged my relationship with my girl friend, and sold Crack cocaine drugs.

The [redacted] year old lady [redacted] who I killed in 199 [redacted] was on Crack Cocaine, and suffering from addiction and desperation, which she like all addicts get into selling sex. Also in a time of Aids.

The Government release and give time cuts to the bullies, and drug dealers. They come through beat me up, beat others and go back out to society.

Psychologically speaking, the master would beat, torture, and whip and kill the male slave in front of his wife, and women.

A officer beat me like a slave, the bullies beat me up. The women don't care about that. I am going to tell the women don't talk to me at all with that mental health stuff. They love the bullies, and oppressor. They don't understand me, and is insensitive to my situation.

A man was punching his girlfriend
in her face, on the subway, tried to
fight me and my friend when we
tried to stop him from hitting her
and his girlfriend jumped in to help
~~try and stop~~ him.

I was rejected and labeled as
a punk, while men who punched
me in my face, bullied me, tried to
rape me, who rob me, who sell drugs,
and beat up their girlfriends, have
children, and was shown love, I get
no love.

The District attorney at my trial
Delcet Clark, told the trial judge about
a emotional disturbance case, he said, "I
don't think you want to speak in that
language." That is obstruction of justice
not to wake me up, to over charge and convict
me outside scope of evidence. That's egregious
infliction.

I guess that's why ISIS speak an
Arabic language of "God is Great"
you're no better than ISIS for what you
did to me, esp as a child.
