Re: Childhood Abuse in America

When I was approximately 9 years old. Me and about 7 people from the project housing, went swimming, I was the youngest.

Some one pop the lock on my locker, and stole my brand new puma sneakers. One of the boys who lived in my building made an accident #12 in the pool, He went to clean himself and use my shirt and pants to clean himself, from my broke into locker.

I said to him you know those was my clothes. I had nothing to wear home, plus no ~~shoe~~ sneakers. Also he punched me in my face for telling people.

I asked a girl out, rather tried to talk to her when I was about 16 or 17 years old. She told her boyfriend and her boyfriend punched me in my face.

This is the continued abuse of my life.
