As a prison activist I can inform you, from years of diligent searching & experience, that it is very difficult to be heard when incarcerated activist seek to reveal the type of abolitionist & far reaching truth about the prison system that the following article reveals. But the APWA editorial staff welcomed me with open arms, this welcome is truly inspiring & revolutionary! So I implore the public to do all they can to support the APWA. Because the APWA gives prisoners a platform & hope that there are people & institutions who are not afraid to seek out the truth, even if it comes from Americas throw away undesirables enslaved in this country's dungeons. I love the APWA! If I could I would write them a huge check & do all I can to propagate their mission. If you are concerned about corrupt court officials & imprisonment in America, I challenge you to read the following article & answer the call to action mentioned therein. This issue is much bigger than race; but if you dare to look, I will prove to you that illicit imprisonment is rampant in Colorado because the KKK or other white supremacist groups have much influence over Colorado's criminal justice system. Please help me stand against this Klan terror.

The KKK & illegal imprisonment in Colorado.

Via Social media, the alternative media & the black press, & OUR UNITY, we have the necessary tools to expose & destroy governmentally imposed illegal mass incarceration/enslavement in Colorado - a illicit system of penal enslavement that preys upon all races & genders. But disproportionately, black & brown people are the targets & captives of this genocidal fraud. So this is a rally cry for all soldiers, all conscientious people who will stand against legal lynching - which can be seen as the ideological influence of, and/or the direct illicit participation of the Ku Klux Klan or other white supremacist groups in Colorado's justice system.

If you visit & help support/propagate my website: FREEOURBROTHERS.COM, a website that exposes Colorado's illicit NO-INDICTMENT felony imprisonment machination, not only will you be standing for true justice, you will be able to help tell one of the most explosive stories of the century!

Who would believe that in 2018, a entire U.S. state (Colorado) has Literally Seceded from the Union, not by taking the necessary formal steps to secede, but by creating a NO-INDICTMENT felony imprisonment machination that manufactures, upholds, & perpetuates false arrest/kidnapping, & chattel slavery in deliberate & clear violation of Colorado's & America's constitutions? Some of the major reasons why this lawlessness, that is reminiscent of the Ku Klux Klan's attacks on the gains of the reconstruction era, is possible because local clergy, attorneys, activist, civil rights coalitions & media, don't have the courage and/or political will to help me fight

§ expose this lawlessness when I repeatedly reveal it to them via clear-cut letters § follow-up phone calls § emails. And considering the fact that Colorado has been a KKK strong hold for generations, the silence § acquiescence of the various people/institutions mentioned above, offers the perfect cover § creates the plu perfect breeding grounds for the KKK itself or other white supremacist groups, or government officials who share the ideology of these groups, to subtly impose the principles of racial hatred § class warfare by unlawfully convicting, imprisoning, § disenfranchising those who are the objects of their scorn § hatred via Colorado's longstanding no-indictment felony conviction machination exposed on my website. Their common cause is to imprison their enemies without cause! Lacking probable cause § lawful authority, they arrest § enslave the undesirables arbitrarily as if they are formally empowered by the original Jim Crow or slave code laws.

Consider this, The Denver Post, one of Colorado's major news papers, has featured stories that revealed that "the Ku Klux Klan has held key government positions in Colorado for generations". For example: The town of Stapleton Colorado is named after Benjamin Stapleton. Benjamin Stapleton was a listed Colorado Klan member who was elected mayor of Denver with KKK support. It's a well known fact that Stapleton was a Klan member. But a town, § if I'm not mistaken, a airport that was demolished was named in Stapleton's honor. What does this say about Klan influence in this state

§ the political climate, § the admiration shown to people like him? Colorado also has a shopping plaza § Development area named after Stapleton. I don't have the exact date of Stapleton's tenure, but I think that he was in power sometime between 1916 - 1925. If you visit my website § review the irrefutable constitutional data backing my claims; § if you consider that people of color, especially black people are proven to be the most targeted group of America's criminal justice system, in this case, Colorado's illicit NO-indictment felony imprisonment machination, figuratively speaking, it might seem to you that Benjamin Stapleton is controlling Colorado's entire criminal justice system from beyond the grave! Also, consider this, Canon City Colorado, which is a well known epicenter of the KKK, has at least 6 prisons within its boundaries.

You should be able to imagine the faces § the races of those who are overrepresented within these 6 prisons. Regardless of guilt or innocence, they are held without probable cause/a indictment that establishes a lawful basis. But the fraud of these crony capitalist § racist expands much wider than those 6 prisons. My website exposes § indicts this state-wide NO-indictment scam that unlawfully fills Colorado's 25 prisons § 22 jails. I challenge you to look into the truth with unbiased eyes § you will see the parallel justice system that terrorizes § lynches Colorado's poor with illegitimate felony cases. Years ago, in a report posted on Colorado's Judicial Discipline Commission Website, Judge Roxanne E Bailin (of Boulder Colorado), asserted that "a

parallel justice system, dedicated to conducting legal lynchings exist in most Colorado counties". Of course, Judge Bailin's report does not mention that Colorado's state wide NO-INDICTMENT imprisonment scam is the NERVE CENTER / great DRIVING engine behind the Parallel Justice system's UNLAWFUL & VOID prosecution of felony cases. Considering that the vast majority of Colorado's felony prosecutions, those initiated against poor & marginalized people, are prosecuted without the necessary indictment, I would not expect Judge Bailin or any other Colorado official to reveal such controversial & revolutionary info to the public. Because exposing the NERVE CENTER / great DRIVING force behind Colorado's Parallel Justice system would reveal a pathway to freedom for those who are UNLAWFULLY IMPRISONED, & it will lead to extensive reparations claims / civil suits against complicit state officials; & it could lead to boycotts of Colorado and/or great media SCRUTINY due to the fact that this state upholds & perpetuates a KU KLUX KLAN-ESQUE NO-INDICTMENT imprisonment scam that Benjamin Stapleton & Nathan Bedford Forrest (founder of the Klan) would be elated to see. The KKK & other white supremacist groups have been known to fund Parallel Justice systems dedicated to conducting legal lynchings. My website exposes this type of system. Also, if you go to CBSDenver.com or TheDenverChannel.com, & do a search for local indictments, you will see that several citizens are indicted in Colorado for felonies or less serious crimes. But this is not the NORM. TO those who are interested, I can cite a law review that asserts: "Colorado's prosecutors

use the grand jury process/system in less than 1 percent of the felony prosecutions initiated across the state." So this means that the vast majority of felony prosecutions initiated against Colorado's poor & marginalized citizens, over 99%, are unlawfully initiated without the necessary indictment.

Usually, white government officials, the white middle class, or high profile racketeering or fraud cases involving several defendants, are prosecuted for felonies via indictment. The poor, especially black & brown people, are unlawfully prosecuted for felonies via complaint or information - which is Colorado's parallel justice system's null & void charging process that unlawfully substitutes preliminary hearings for the grand jury process, & complaints/informations are substitutes for the necessary indictment required in felony prosecutions. This is a clear denial of due process & equal protection of law. This issue is bigger than race. Because just like the KKK would terrorize & murder non black people during the reconstruction & civil rights eras, Colorado's ku klux klan-esque parallel justice system/no-indictment machination unlawfully inflicts coercive violence & "punishment" (false arrest & illicit imprisonment) upon poor & marginalized white people & other non black people. Even though black & brown people are disproportionately imprisoned in America, the issue that I'm bringing to your attention has much to do with crony capitalism, elitism, & class warfare. Because my poor & voiceless white brothers & sisters, & other non black or non brown people of color, are hunted & preyed upon by this lawless system of disfranchisement, asset forfeiture, & penal enslavement, simply because they are poor & seen as

disposable & undesirable pawns that can be used to bring profit & power to the "tough on crime" politicians, prosecutors, judges, police, & various investors & protectors of this nefarious & illegitimate system. My NON black or NON brown brothers & sisters, you are not alone or forgotten. FREEOURBROTHERS.com is taking a stand for all humanity. Don't let the divisive media & the hypocritical slave magnates stop us from organizing against our common chain of oppression. This is what they hope for & rely upon. We need to take a stand. TO the people: Please visit my website & sign the petition en masse. Also, please refer this issue to the media - specifically the Black media or alternative news outlets. TO the media: Thurgood Marshall once said "The klan used to wear white robes now they wear black ones". He was referring to judges. My website exposes the wicked mechanics of a parallel justice system that produces false arrest & illegal & VOID mass imprisonment. So the ideological influence of the klan, if not the klan itself, has upheld a long-standing lynch law system that operates without constitutional authority. Please don't be silent. Think of the children & families of all races who are exploited & destroyed due to this CRONY capitalist CORRUPTION. Who would believe that in the 21st century, an entire U.S. state upholds kidnapping / false arrest & UNLAWFUL enslavement on a massive scale? But this is the irrefutable truth rooted in this Nation's founding documents. We need your voice. Thank you in advance for your support.
