

Title Race relations,
Under Trump.

By UFO

In a recent Pew report, data was collected to look into, how race relations worsened since Trump ^{became} ~~is now~~ President. Six out of eight americans believe that race ~~has~~ relations have worsen. But we need to look into why has it worsened. I believe many americans are becoming more aware of the conditions in America. I think race relations has worsened under Trump because of his normality of white supremacy. ^{His} ~~lets~~ "make America great again" slogan to some people was a subliminal message of making america white again. When you look into ~~to~~ how america became so great, Its a story of oppression. The first is the oppression of the Native Americans, and the exploitation of Africans, and the mis^{treatment} ~~se~~ of European Immigrants brought here for the sole purpose to be the Indentured servants.

So his rhetoric has created anger and opened up old wounds which were healing.

African Americans and those of the left see Trump as a racist, and Caucasians here in America see Trump

as a Savior to their economic conditions,
those of the middle class who feel that
its not a race problem but ^{a economic} ~~class~~ problem.

But there is contradictions in both judgements
of Trump. Race relations have been tied to
a system we can call white capitalism, those
who represent the One percent, the bankers
control American politics and the policy's which
are systemically racist. Then there are those
who enforce these policy's the police. Who would
use force they deem necessary to maintain control.
What's left is the ^{white} citizens who are brainwashed
into a Ideology of Superiority who feel as
though they are being short changed due to
policy's protecting minorities. ~~So there comes Trump~~
~~with~~ ~~all~~ ~~this~~.

And with economic conditions getting worse,
we need someone to blame, so with slogans
as make America great again, it feeds the
hate within and people are fed up and
resort to oppression. So race relations ~~have~~ ~~was~~
have always been a problem. It dont matter
if its Obama or Trump, Reagan or Bush race
relations will always be a problem. If the
economic conditions ~~are~~ ~~not~~ ~~get~~ ~~better~~ ~~for~~ ~~all~~ ~~people~~.
don't get better for All people.
