Volume "3"

Hughes Unit

Rt 2 Box H400

Gatesville, TX 76597

7/28/2017

What's on the menu?

Around 8:30 AM, Friday 7/28/2017 I arrived at my new unit of assignment; the Alfred Hughes Unit in Gatesville, Texas.

Ironically, the administration had no I-idea why I was shipped to their unit - "24 hour medical unit."

Security Threat Group, + State prisons personnel claimed to know nothing of the assault that took place, or the validation, as well as approval for transfer via Warden Gonzalez - segovia unit.

Upon asking to speak to assistant Warden Powell, to explain my situation before the unit Classification committee, as is the norm, I was told, (himself + 1 young female) "no, there aint' nothin' for us to talk about!" Warden Powell, was Major Powell about one-year ago, at the — Mark W. Free-styles unit!

Aside from the trending administrative games, the Hughes Unit has similar Feeding policies as does the Free-styles. Currently T.D.C.S. is using the "heat" as an excuse for serving cold-trays in the evenings. Coincidentally these trays are nameless in content, + consist of mostly carrots, beans, and dry noodles. I guarantee you that whatever they are feeding us, is not consistent with the menu that is available for public viewing. That is a slight gamble though, for they have not bothered to post the menu here, for over one-week, at least! — — — — —

So, as far as the menu — looks like more
of the same.

"They" will probably deal with this problem the
same way that they dealt with the Federal
Mandate regarding inhumanity — numerous deaths
due to improper ventilation / A.C. They may
choose to simply ignore it, and go the cheaper route
+ simply — pay a fine! And, everybody wins —
right, almost everybody, not you the tax-payer
or "we the Living" — in a supersized — concrete toaster oven!
(R.I.P. Ayn Rand)
