I ended up here in the year of 2010 and when I arrived they treated me well and up until now, I am fine because I am working earning 30 cents an hour. The only thing is that I cannot see is my family, but I call them by phone every once in a while, but for food, well here, they give us three meals but yeah they treat us well. I don't complain. Up until now, I live life clean. I cook, I eat when I want. I wash when I want. Every day they wash the clothes for us. I am healthy. So far, I never got sick. Until now. Violence, I haven't had any problems with anyone. I behave myself well. Well, education, I did not go much to school. Only 3 years, but I am going to school to see if I can learn a little bit. My family is very beautiful, communicating with some in Mexico, some here in ID and others in Houston, TX. The only thing that affects me is that I have to ask my family for economical help.
