Título del texto: why are we inprisoned So long?

Within our justice system there are those who hold the power of a man's life and his families why are we not allowed to leave these walls when our fixed term is complete? There are good many people who have been here eight or more years passed their fixed term. The State of Idaho has become the most corrupt state. Our government lies and cheats only to deepen their own pockets making us who live like cattle earning money from us. This is one of many reasons why they hold us back from going home at the end of our fixed term. why is it that the federal government is giving more money for programs that don't work? why has the federal government not stepped in and sought to find the reasons why the State of Idaho is so corrupt?
