### Accident in the Prison of Idaho

Three weeks ago in the month of November, an accident happened inside the cell. About 5 am, a black race person got in the cell and asked for the person he was going to hit. He found him in his bed and hit him. He left calmly and right away to the place where he lived. Later, they found him and put him in the hole. It was his punishment.

Soon the injured person asked for help to the security official and they put him in the hospital for his medical attention.
