## Shut it Down

Ghandi sat down for peace, and was recog-  
nized for his efforts at nonviolent protest arou-  
nd the globe. Former quarterback of the San-  
Francisco 49ers <sup>(50)</sup> Kabir Kapadia respectfully took a  
knee during our national anthem, and was  
awarded a Contract with Nike. I with  
arms shackled, and leg irons on, respectfully  
took to my knees, and requested to speak  
to rank, and, or safe prisons at the Alf-  
red Hughes unit, in Cratesville, TX and  
received a Concussion; hemotoma, staples +  
stitches about the face + head, a rupture-  
d eardrum, fractured nasal, + facial bones  
as well as fractured ribs etc. And if this  
wasn't bad enough upon arriving back at  
the unit from the local Emergency room  
... I was assaulted by yet another crew  
of SC Ad. Sec. officers, + returned to  
the local E.R. for treatment, yet again!

If you have read my prior essays  
it is easy to put the pieces together that  
led up to these assaults. It is also clear  
to see that I reached out for help, but  
no-one cared to listen! This is a clear  
case of harassment, and retaliation by  
officers, and the administration of The Tex-

as department of Criminal Justice;  
Sgt [redacted], officers [redacted], D [redacted]  
and K [redacted] were the orchestrators, and partic-  
ipants of the first attack, attempting to  
force me into a situation that was against policy  
, & my best interests. Officer [redacted]  
was the leading assailant as he kicked  
the ordent off by striking me with a set  
of handcuffs all over my head.

The second attack was supervised by Sgt  
C [redacted], as officers [redacted] & a few other  
Seq. officers beat me until I was  
unrecognizable on my face.

The nurses were present during these  
attacks, as well as an officer from a  
nearby unit working overtime, officer  
W [redacted]. Hopefully they tell the truth  
when ~~supervise~~ supervised.

Any how, as I've said before, it is  
sad when people employed to be part of  
the solution become key participants in  
the ongoing problem. "They" will  
kill you in here! Anyone know a  
good lawyer?

So, IF it doesn't fit, we must quit.  
And if it only serves the purpose of employ-  
-ing the unemployable of the local town,  
- we must shot it down!
