

Dear Reader

My Name is [REDACTED]

My Prison experience began back in 2003 when I was 17 yrs old on May [REDACTED] 2000 I was Accused of Rape the fact is that I was Caught having sex with A lady of the Age of 16 yrs old by her guardian After fighting the Charge for 3 yrs June 2003 I plead guilty to A lesser offence under the Advise of My lawyer which was not An payed Attorney so I plead guilty to A 5yr Sentence @ 30% which I served 48 months on to be released upon lifetime Supervision Which is something that I had not agreed to when I took my 5yr Sentence or something that I was unAweas of unknowing At the time signing to A life sentence At 21 I gave My life Away All behind 15 minutes of unneeded pleasure since then I have been in And out of prison the pressure behind My situation has Never subdude And may Never will the fact that the State Could Care less About me or my situation only to them AM I A body to take up A space in which they Can recive A fee from to keep there Ball rolling! As of Now I'm serving A 8yr Sentence behind lifetime Supervision Violations Along with new Charges of Robbery And Theft the day to day life in prison is Stressful

one has problems of there own And once let lose inside the prison system lies A Whole nother world in which it becomes Even harder to Maintain A scence of sanity it is A Every day Struggle for one who truly wants to Change for the better to do so. Time waits for No Man And As it may stand still for me while I Am in here life in the free world keeps going this situation that I Am in doesnt Just effect my Self it Also effects my family My Mother, Sister my 3 duaghter's my Aunts, & uncles this situation has truly ruined my life or Charged it to the point that I will Never truly be Able to enjoy my life I have had to start over so many times I've lost ~~so~~ so many thing Time, Money, life experience's, I Can not go to my Children's school event's with them I Can't go pick them up from school My oldest duaghter graduated from High school this past may I was in prison I was in prison when that baby was born I was in prison when All 3 of my duaghters were born I have A 5yr old, 9yr old And A 19yr old once I'm finished with this 8yr sentence the state will have gotten A total of 19yrs out of me All behind A 5yr plea that I took way back then you see the thing that A person does not know or understand At the time of Conviction is

thus once you plea guilty your done regardless of the fact if you know All of the truth behind what you are excepting or not See my Attorney Never once told me that if I plea guilty to this 5yr sentence I would be stuck on lifetime supervision for the rest of my life to follow I wanted to fight the fact that the sex was not forced and All my lawyer told me that because we had sex and I was caught in the act it would not be look at in my favor that the plea for 5yrs was the best option and that was so far from the truth my Lawyer pressured me in to pleading guilty he pretty much talked me out of Trial and Never fully explained the facts to me of my plea deal and At that point I became the victim my family became the victim my Children to be were victims before they were even born and All of this was unknown to me then but some one that it was not unknown to was my lawyer and the D.A. and the Judge and the prison system They All fore knew All of what was to come and this is where the problem began and All these years later All this Time Away from my children, mother, family, loved ones

All of my Broken relationships All the money that my family has lost to the state for Commasary And phone calls And stamps, And Books And Travel fair Gas I missed my Grandmothers funeral I missed my sister Graduate And for what All behind A charged that I served my time for but yet All these extra stipulations behind the fact And or After the fact I AM now 36yrs old I just went up for parole August [REDACTED] And was put off for 4yrs I'll be 40yrs old before I even go back up for parole I've been in fights I've been jumped I've become A Gang member I've been Assaulted by officer's I've lost teeth I've dealt with health issues As well As mental Health issues And All of this stems from A charge I caught when I was 17yrs old now 18yrs later I'm still to the one's that ~~to~~ knew All Along I've been serving the same sentence the one guilty plea has cost me so much it is unthinkable the way my Community looks At me All of the Rules I must go by A person Can commit Murder do there time and get out of prison but me I caught this charge At 17 now every time I get out if my time is served or not I will Always be on some type of probation have to take Drug test have to pay A yearly Fee

You see if I get out of prison finished with this 8yr sentence I will still have to report to probation and parole I will still have to take drug test I will still have to stay away from all children, parks, schools I can't take my children to the movies or to get ice cream my daughter cheerleads she ask me why I can't come and watch her why I can't support her and the whole time I'm looked at with a shameful eye by the public or a watchful eye if I finish this time and I catch a Jaywalking charge I will get a second charge by probation and parole called a supervision violation just for getting the Jaywalking charge and the thing is this the supervision violation carries a secret jail sentence in it self so if I get a speeding ticket and say I get a sentence for 90 days to serve in jail the supervision violation is liable to be a class E felony with up to four years to serve now how is this right?

Alright my girlfriend was mad at me and my supervision officer did a home visit she told him I had not stayed at her house in over a week I was handed a 4yr sentence behind this the D.A. in all this last situation stacked up 27 charges on me in order to get me to plea guilty to 7 charges

for A total of 8 yrs to serve since then I've been Assaulted by inmates I've been Assaulted by officers loosing teeth having Surgery And All And who has to pay for the wrong done to me? I have to pay for it with Blood with lost of property with lost of parole with Solitary Confinement When is enough enough At what point do I become recognized As the victim when will my family be Set free from heart Ach And heart Break will it take for me to take the ultimate sacrifice me losing my life to the grave or worst me losing my life to this prison system

If you would like to hear more About my Situation look in to legal paper work hear from my family See Criminal Records parole findings See pictures Appeals that have been denied And Disiplinary Write up's please Contact me And let me know All that you would like to see And have me send you I AM An Advocate for the Wrong done to inmates held with in the system I now AM on Maximum Security And I do not go up for parole until Aug, 2022 Hys from Now
