

Editor: College Well

A recent study read that there is over 1.7 million children effected by incarcerated parent.

The incarceration of these children statistics show increases to an incredible level. Historically, the national advisory commission on Criminal Justice Standards and Goals clearly disproved the myth that decreasing crime rates have anything to do with increasing incarceration and announced that prisons unmistakably create crime rather than prevent it.

out of control incarceration has infected the children in to the future - future prisoners - the effects are "decades" in to the future.

It's so incredible, that our American
society is so - intituated with
law enforcement.
a mental obsession.
law enforcement its self has become
a * criminal enterprise *
that increases daily -
It don't require a Albert Einstein
to realize corruption exist.

Sincerely

Mr. Bob G. Fupeat.
