Why is my life Not worth saving: By
Michael McAfee Sr.

Where do I begin and how could this be that I'm in Prison and no longer free. They have taken away my freedom and my dignity too and what they have done to me they can do to you too. I have been accused of a feet so bad that their are those that are Judging me but don't know the thuth. I spoke against my self of fear by the Police who forced me to speak lies to Convict me of a crime I didn't commit. The State had evidence of someone else at the seen yet I was arrested and beatin like a animal and given a sentence of life without a chance of ever being free when for 54yrs I had never been accused of a crime or ever Charged. Though the State found someone elses finger Prints and after swabbing me for DNA they never revealed whom DNA they found. They said the defendant had a gun but never was their a witness that ever even seen defendant with one. The world has become so violent and the Police is leading the way all you have to do is turn on the news you hear it everyday.

I watched Police choke Eric Gardner to death on television and watched them shoot an unarmed man with hand cuffs on. I have driven a truck (tractor trailer operator) for 30yrs and at the time of my arrest I was working at UPS (United Parcel service) one of highest Paying Companies in the world when it comes to driving a truck. If the Shoes was on the other feet and I was White would it have been so easy to convict me? Im still standing and fighting for my rights as an american Citizen. I was Compelled to be a witness against my self is totally unlawful. I miss my family I dont have Jay-Z to help me with my legal case like Danny Glover did for Reginald Clemons who also was forced to say something he didn't do. The american society which we live in has a Communist Judicial System when it Comes to the rights of the Citizen especially if they don't have a seven figure income. I was making six figuras, but didn't have the established Crudentials to show my stubbility as some of the other well established Citizens while working my Job with UPS.

I lay awake at night and I hold my Pillow tight and though were separated I still miss my wife of 30 yrs even though we were seperated for 9 yrs I still love her. I'm no monster and Killing is not my bag I'm a lover not a fighter which is an old cleesha. Listen I can say I didn't do it but you have to look at the facts I had dinner with my ex and she is the one who asked me to come to her Cousins house. My wife is still living so why would I hurt a woman Period but I wasn't even married to the lady so how would it benefit me to harm her. The story has many twist and tumns but most of all after I was interrogated by Police I was in a cell by my self so how did I get so beat up. I guess I beat my self up? You do the math Their is no Physical evidence that the man Commited the murder Plus I left cloves like the rag I said she used to wipe it off (the weapon) they found no such rag. The Police said out of hrs own mouth that the accused didn't know what kind of weapon the lady wes killed with and then he tried to cover it up.

The Officer Put my name on top of the statement and his Partner tried to make me say I shot the lady and the offrer that Put my name on top of the statement said it sound like a crime of Passion but I don't remember sound like first degree murder. And because I sord what happen in the interrogation room I was sentenced to a life without. Sound like Consbiracy to me because they tried everything to make me say something against my self. I hope that Some day they stop Persecuting me and look for the real culprit until then I will Continue to fight for my freedom even though I haven't the fonds to hire a good Street attorney I keep fighting even with a Public defender, but we all know they work for the state that's why I'm in Prison. Please Keep me in your Prayers.
