

Do not agree Justice Systems

I paid over \$100,000 to a lawyer,
my contract included investigation
because I fought without investigation
I can not defence my case at the trial.

Unfortunately my lawyer didn't do it for save his money
then I fired him and ask to
the court appoint public defender to me
because public defender use public money for investigations.
but court denied because I have a house

then Order me with in 9 business days
sold house and hired private lawyer and
bring in to court for continue my case
other than that Judge use public defender
for sentencing purpose not fight my case
the court sentenced 18 years to me
without any evidence and investigation
accusers are illegally stay in America
and accusing me get a green cards
I'm Veterans and paid taxes over 40 years

I never involved any crime
and never ask public assistance at all
but the government assist illegal residence and
created prisoner spend 2 million dollars for custody
these money should spend education
and job training for better society

one inmate here stealing 1 cell phone
he may sold for \$100⁰⁰ for his living.
The government sentenced him 18 years and will
spend 2 million dollars for custody
I'm totally disagree the government
should spend those money to education
and job training and he will be
tax payer instead prisoner
I did not see any rehabilitation they just
keeping prisoner for their job security.
Thank you
