8-1-2019

I sent my permissions sheet today and try to help your project and tell you my opinions U.S.A has 5 to 10 times more prisoners than world average

I believe that U.S.A. manufacturing prisoner for budget hunting by justice system

If you work full time at the McDonald you make around \$30,000 after tax government spend \$75,000 per prisoner but not enough rehabilitation programs

example; prison has college programs and many course has no books but many teachers who have big salary do it little thing if reduce 1 teacher that enough budget for text books

example; her chino prison A yard otay housing prisoner name Eun Young Kim he took 1 cell phone may be he sold around \$100 for living money but D.A. threat him 25 years to life because he have prior record he accepted a deal 18 years prison but government spent around 2 million dollars kept him in prison 18 years

If government rehabilitated him on early release he may become tax payer instead tax spender

example # 2 2017 I was Santa Clara County Jail his name is Carlos Martinez (Spelling?) I spent 2 years together in the jail I was very honest and nice guy he came from Honduras, have no money but his coworker donated \$80,000 for his lawyer fee also visit him I living in U.S.A. over 40 years never see or hear these kind story that's why I believe he is innocent he showed me Doctor's examination report all 5 girl has no evidence founded
1st D.A. Quit because no evidence
2nd D.A. Quit " "
he lawyer said to him, may go home but 3rd D.A. take him to trial the court sentencing him 370 years from Womens accusing

example # 3

2017 in Santa Clara County one guy took a money from hooker and he make deal 51 years prison took a money that is a crime but that much time 51 years

Same type crime
someone took hookers money
Alameda county he got only 6 years
Same California law
different county different deal
6 to 51 years
if loose at the trial
may be 100 years sentencing!

real evil is america justice system
please spend money to education
and job training instead the poison

Some Judge and D.A. think more punishment
for did good job and looking for promotion
but actually they made society cancer
my Judge talking about baseball game
at the courtroom in Morgan Hill California
right after sentencing someone
45 years to life

Thank you

Deo
