

CONTINUATION OF MY LIFE....

I want to give more indepth life of what I was like as the 4th child, I did not go to the same schools as my 3 older siblings... I was taken out of the 2nd grade and with some adjustments I was placed across town on a street called Hazard St. the elementary school was in surrounding shacks as most popular schools had... to accommodate the size of classes this was called Edgar Allan Poe I was there 4 yrs... then I was placed in a Junior High School over on Stella link John J. Pershing...

Then out my 12 yrs I was placed in special education classrooms in which they were smaller size... from 30 to maybe 10 or 15 students....

I eventually was sent to the High School where my 3 other siblings went thru... Westbury Senior High...

The years I was growing up... in my family we had our ups & down typical family loving, caring... I never joined any sport events, I was involved in arts & crafts? After I graduated in 1978... I was now seeking employment... which then being the late 70's & 80's... construction, working in grocery stores, I eventually got on

Working on tug boats... I of course had to start at the bottom...

Along the way I was a Active Young man... I met Along Women... I was involved with a Woman Cherylyn... We grew up on the same Street... later we got married and we had a son Eric Royce...

My life was at times Smooth & Rough... I got in trouble with the Police... So I was asked by Mark my 2nd oldest Brother who joined the Navy... was stationed in San Diego, CA... I lived with him & his wife Rhonda & Baby... in an 1-Bdrm Apt... then being new in the state of California... I found a job working in a furniture Comp... But along the way I meet a Young Woman... Again like before I was a Young Stud... So Sowing my oats was who I was? As most who read these pages you can see that I was Active with the Ladies? It was early on I'm going to say in my early preteens I loss my virginity with my own hand so to speak
