and even the state pay recieved leaving inmate's with little To "NO" money to survive. Alot of staff are unprofessional and very disrespectful when speaking to inmate's. They Gossip and tell people's business and put inmate's safty at risk when doing So. Due To the lack of Camera's here at reecc anyone can be hurt at any time. We are NO longer Just a minimum Custody Center, because there's Lifer's here and people who will fight and NOT Care to lose what they want to accomplish.

So many fights go on without staffs knowledge it's Sad. I Currently have a statement on a physical assult I witnessed and staff was unaware of for almost 2 Days where a young lady had her nose broken by her room mate.

So these are the untold stories of Robert E. Ellsworth. Until Next time...

Hello my APWA Friends; 11.21.19

It's Mia L. White again #541187 inmate Number, From Union Grove WI. at Robert E. Ellsworth Correctional Center.

Today is 11.21.19 and 9:02 am. The inmate's here have been woken up at 8:00am for a mandatory cleaning Day Due To the Madison and much higher Athorities Coming into the Center Doing a thorough Exspection of the Center Today. We the inmate's have been threatened with tickets or Seg. for not cleaning. I feel this is unconstitutional and we the inmate's should have a choice and a voice when it Comes to these forceful acts.

We are being forced to clean the Dust and Mold away from the walls when it should've "Never" be any. There's a D wing here also and they've been without heat for over a week and in my building Though we have heat The windows are in horrible shape and the air still Comes threw. Alot of people including myself and room mate's are forced to sleep in their sweat pants & Tops with Two blankets just to keep warm at Night.

The DOC takes 100% of the money a inmate Gets from Family & Friends
