Mary Whitecell
Regarding Restoration of Credit

11-26-19

Yesterday I woke to the News

The president Restore's SEAL TEAM SIX
galligan's TRIDENT, Fires the secretary of the
NAVY. This is a promise fulfilled The
P.O.T.U.S. Is Doing what he said he would
do. Me Am Still here, yesterday I had a
hearing for a Rules violation Report "A.K.A.
'115" They called it a Fight yet all it was
was some junkie with a Big Mouth calling
me a child molester, their isn't anything
worse than a child molester in prison and
to put a jacket, on some one without paperwork
could get someone hurt or killed, you see if
you don't know what a jacket is that's a false
accusation or Rumor about a prisoner. To
others that causes action against that prisoner
to cause some kind of action a plot to remove
them from there program to get them off the
line because they poss a threat to the way
of life for others, with me. The Dope Friends
Hate me because I don't use drugs The Dope
Dealers consider me bad for Business only
because I'm not buying any drugs and I
have many years of Recovery, Even the
fake ass Christians cant hide cause god
watches and sees everyone and all they do
weather it good or evil, I Sat on the
yard for 2 Hours last night while the
Lieutenant and his crew read the report
and decided what to do, yet called me
right after dinner while the Dope friend
that was speaking in a meeting just the other
day was waiting outside asks me what

2)

happened as I was asked by the Lt. to take a couple of laps on the yard track cause they weren't ready for me yet, I told the informant I don't answer cop questions the Sgt. sitting in his office when I walked in to the program office and announced my presence asked the one question "Hey [redacted] you ever been in the military?" My answer plain and simple to the point K.I.S.S. Keep it Simple Stupid Nope, Denial everything at this point in time I must put restrictions on my own activity and earthly desires my service is this reporting the war from the field I told the Sgt. whom never identified him self yet is asking questions I say I'm just a no-body telling everybody about Jesus, that last name Jesus it just kills the conversation for most and once again the Sgt. didn't want to hear anything but a answer to his question that's why I don't answer cop questions especial when they are just over paid lazy security guards that are under trained to deal with the over flux of mentally ill and criminal terrorist, that see America as there enemy since they committed a crime that landed them in prison yet there are more and more inmates being found to be not guilty of the crimes they committed or were set up by those who used them for information and promised them a deal to spare them a life sentence it's the old I'll tell so I get a lesser sentence for doing ~~into~~ the crime but the first to make the deal skates the punishment

It's like watching a old Re Run of a T.V. Show, But the Book My HomeBoys wrote called "Frank the Shank" the Story of the LMP the La Mirada Puny's It's Funny and laughable. The Disclaimer States The Names Have Been Changed to Protect the guilty yet everyone from My town in Southern California that knows My Nickname, Dont Need to Read about the lies told about me in the Book one Being I was Seen Raping a woman at a party, changing My Nick name then using photos in the Book of me without my Permission, Totally a Violation of the Law If they Researched My Murder case at 17, and had all the Documents My So Called Homies whom have lived off My Reputation and good Name for way to long I had a youngster the other day come up to me with his young Buddy telling him, "Man this is the Big Homie" I had to be harsh! I told Him I aint NoBodies Homie! I Said all My homies where are they were 'are the we love you' Bubba' Packages or the heres a wet 40 - on your Books It's Not Much But it Beats a Blank, well Son MISS Me with all that Homeboy Shit, I work here in My cell everyday, while My Homeboys are out there living on My Name Still Making Money on just one sentence or one sheet of paper I Destroyed and Drew on I can draw you a hundred Dollar Bill and Sell it for Millions Fools / yet I Sit in prison guilty of a Crime that Never took place and I got even had, I've Been in a Mental Health treatment program which Has done Nothing But Feed Me Medication "Snake poison" for years to

do what? Keep me calm from who? why the computers? The geek squad that is high on Rock Stars and Starbucks, "A.K.A." "Crack in a cup" while they daily over load a system with more and more data to create a false scenario to keep their jobs and god help you if you get upset and say any thing when you start making too much sense in the open public of the prison court you are silenced by being lead back to your cell and threaten to be moved or shipped out or it just happens if your case starts coming together in the court system all of a ~~fact~~ sudden you get a trans-pack notice your being shipped to another prison so although it is legal for us as inmates to help each other in legal matters if things like I said start going your way the admin just nips it in the butt none the upstarts to concore is to divide right? Divide and concore the enemy is everywhere and even like the gospel says your best friends and family will turn on you. So I already know that as a warrior and a Southern California Sovereign, a English dog I woke this morning to the Real News that there was a Earthquake 6.3 in the greek isles region to those in Italy may God hear your war cry's many years the original Mafia Refused to be involved in the Drug trade, Said that was for the Niggers "Ignorant people" "Dirty ones" Straight out of the Movie the God Father, But the so called world has become so overly sinister that anything one may say or ~~prop~~ proclaim will be countered by protest like a protester protesting the protesters for protesting at a protest over some thing and god help you if you say the word white! or white people so if your name is white or so forth Boy your

Really In a Fix! in this Day and age when every arguement is finished or Started if you are white you might as well Be a cop or a Nazi, It is almost like Being jesse james No offence to jesse "you know who you are" C.F.L: But I've Been Seen where at the Indian Casino in San Bernardino California wearing jesse's T-Shirt winning jackpots on the slots on camera so if we are in a Surveillance state where we are the collections of the thousands of T-shirts the stethy worn over the years advertising this once 68 in Bill Board of a chest in my younger years Now at 52 in the program office the lieutenant says to me you are a **Big** guy? while some do something my kids age in a level 4 maximum california State Prison mental health Unit is gonna fuck with my mind by talking shit to me in my rent while he bys drugs and it takes him 2 months to pay me a Dollar in a Sugar Shack Honey Burn for a RAT ASS piece of state chicken he wanted to trade for, you all want to hear about how someone can die over a Butt Naked 25¢ Soup when someone dont pay their Bills or wants to make a Deal with another inmate when they have nothing they all come Begging until someone sends them a package or puts money on their Book's while some one like me the system wishes to make a example out of dont be like him He is a mad man? a what? why? Because My Name is a Good Name Remember Defication of character is a civil crime in California as well as False Reporting By State employees so if the United State Senate agrees that Making False

Reports is a Crime as well Senate Bill 2681
 P.C. 118.1 pc civil code 52, all the Reporting By
 State officials about Me, all Fake and Made up
 about Me I was warned in 2015 my Files were
 exposed to the Dark web as well as All My history
 So what does a foot print and Social Security Number
 do for Me when I'm locked up out of the way and
 Any one of Millions of Billions of world wide Net
 users can exploit my Name Rank and Serial
 Number, So they can have all the Metals they can
 have all the trophies But the patches and the
 Tattoos will if you crack up and can't hang you
 can loose your Patch and well My Tattoos will
 go with Me to the grave yard, and all those I
 Earned Cause I Dont Need No Stinking Badges
 My Father hated cops I didn't Have and Dont
 Have Any hate for Anyone But Its funny how
 Hate Rears its Ugly head, when over one word
 or a photo or ~~stump~~ simple Drawing can Spark
 a Flame And Music Between Rap & Rock and
 Punk and country I'm suffering, Battle Fatigue
 here while I watch all these Really Really
 Smart people Run around here in circles trying
 to Fix everyone, The Trumpster Said it Best
 If It aint Broke Dont Fix it, give Law enforce
 ment the tools Necessary to Stop the Criminals
 yet what ends up happening is the punishment
 Dont fit the crimes and when you have people doing
 time with people who are Never getting out those
 people Have leverage over those who have a Date
 to Be Released Since the Federal court ordered
 the State of California to cap the total inmate
 prison population at 137% I believe they are
 so out of control and hard pressed to find each
 and every loop hole to keep, Move around and

● Like Me Some one who was Due to go Back to My Family Back to My "Businesses plural" and work to be Recieved By My Church and family of God & Reguarded By My Friends waiting for My Return to Society for a 10 year Sentance for something that once again Was a False Report And Never happened, I can even prove the facts in my case, Cases where when I've even Requested the Files for prior Records that are Suppose to be in my current file that are only from the last prison I was at But the Records Department are Not Releasing them and the Staff here Dont know why? Well I can tell you all that Read this it is called simply "corruption" when a Sgt can grab his Balls and tell you you have none I then

● you prove yours are Bigger, Now they Rin and Hide and Dont Answer your Request for simple Documents Its So Funny how some one with 3 years on the job can Sucker a Corsectional officer into lying and getting others to risk there jobs yet that's what one Staff member Did, for the sake of a internal investigation Still Underway I will Not Disclose Names yet if anyone wishes to believe I am making false Reports for the Archives they can always personally contact me at my prison address here And I will be more than willing to provide the case No. To My current case to which I should have been Released already yet my Document came up missing after a 6 day stay in ad seg in Donavan State prison where my junkie Dope fiend cellie unbeknownst to me placed a poking Device in the light fixture in

● thru a Bolt hole that was missing a Bolt It was a eye glass frame handle that he had made to poke holes in his pants to sew then Iwecked out of his mind got Scared I would assumed Since he Never told

Me he Put it in their Nor that he Broke off My
 Handles from the Eye glasses that were spares & that
 just sitting around as I didn't use them anymore only
 until I was Released 7 days later and I Received the
 property 4 months later did I receive He was the one
 whom had installed the so called weapon in the
 Fixture these are the games you have to be aware
 of even your cellies you have to keep a eye on in
 this day and age if you get a good one or if
 you are Singled celled, I tell people all the
 time this is the greatest State in the country its
 the only one where if you kill your cellie they will
 never give you another one, kinda like that New
 law that was just passed about abusing puppies but
 different! these are the things we see behind the walls
 the so called Information officers won't tell you
 the general public for matters of libel or for
 safety or security reasons everything can be a
 safety issue if they lie they are afraid if I tell
 you the truth they fear for there jobs, houses
 cars, incomes ect. but me its cheaper and more of
 a profit to test lie together cause everyone will be on
 the same page as the ones ~~that~~ who come to work and
 risk there lives to keep inmates 1/2 of whom dont
 care about themselves enough to want to live have no
 hope and if a Dope Dealer packs a outfit with drugs
 or there nose with meth and puts money on there
 books most even for a T.V. set or Radio C.D player
 and some C.D.'s will do just about anything for
 you even stab some one kick the shit out of some
 body all in the name of Boardman and gangs
 stupidity well Happy trails to you until we write
 again from the Swamp Donkey town, Mule Creek
 where Balah's ass had more brains than most people
 here; me lost to the world thank God Larry Whitecell
 CRAZY ? MAYBE
