

A Bitch Slap to Nietzsche

If you don't know who Nietzsche is, he's a famous thinker from the late 19th century who is famous for declaring GOD as Dead and believing immorality is power to those who seek it and morality destroys individual lives. He believed apparently that humans are not in any kind of spiritual battle except with morality that "always" destroys people's lives, he must not believe in evil or Aliens, or supernatural balance that if needed is needed for existence. He is in need of a Slap to take all his hate out of him.

Nietzsche calls Christianity "religious neurosis" how foolish is this man, I guess he grew up educated enough to not live as dangerously as he claimed to live. The devil is not found in books he is found in life, parts of the world, certain groups of people. I'm in prison and only 23 but I was gifted to struggle with voices that allowed me to see the universe and a battle in God's name. Vitality has a way of reproducing but some people who may be like Nietzsche reap what is not theirs. I'm talking about

property that is not theirs, people's
lives, countries, worlds, all to make
a profit. Alien, of course destroy
worlds, I've seen a UFO and in
alien face to face. Astral planes
exist so I believe in God in order
to help my planet and not be
subject to a devil for eternity.

Nietzsche either choose to
be evil and trick people or
was a unrounded person with
demons since child birth. I like
to read his work because now
in days so many people are
like him. I don't read the bible
much, pray, but I do spend
a great amount of time in my
mind fighting and coming to revelation
of psychic mentors who are evil
but recognize good and the
product of discernable devils.
Families are coded I'm asking
to decipher the truth in
your family and friends, some
of them are demonic and
sociopaths its very common
at this age and ERA. It took
me prison to see the truth.
So I don't expect the same
