

11-29-19 To the Next Race of
EARTH

This letter is for Robots Edward
who have taken over the world because Humans were
destroyed by evil. Humans were controlled, fooled by
higher powered humans who deal with demons, spirits, shadows,
and celestial nature. Create Community
faces of good, true profit is
of goodness and not of anyone's
pain.

Humans began to use electronics
very much not long after the second
world war. Rumors say there were
aliens involved, who I believe are
destroyers of planets. Then Again
I have also come to believe in
shape shifters who deal with Aliens
by killing, selling, and feeding some.

I have seen some with big heads
others like from E.T, and the powerful
and scary Brain Showing Aliens.

I believe I will be possessed
and be killed or tortured forever
but it was because I tried to
save the world and gave up

because I felt I was normal,
I ran inside a house because
people Men in Black were following
me really he see evil and
destroying my soul. I met
voices' true characters once I
was in prison, they were
noisy but didn't say much, any-
thing good anyway.

Plato's Republic is good
to robots: save the world
be strong good and humble
make friends and fight evil
with courage because only
you know and because you
know, only you know.
