

I AMN'T DONE YET... By: King Cole

~~FINISHED PRESS~~

I have been to Prisons where Security Staff has been short such as of course ~~Macon~~, Macon and GSP. But Telfair S.P. has surpassed even the Notorious Mays S.P. This place is ridiculously understaffed. No floor officers: Period. I've been here since 9-~~19~~ and T.S.P. even had to recruit officers from Montgomery to bring in transfers from Jackson S.P. which contributes to all of my personal property being lost/misplaced by them.

The understaffing is so grand that ofcs. must abandon their posts in order to aid another with their duties and they ~~then~~ return the assistance back & forth throughout a 12 hour shift. And as far as the danger level: I cannot attest to that yet. But being of my experience with close security prisons; I honestly believe that T.S.P. is a deathtrap in the making.

But; do not believe that it is all bad considering my experience in Trion, Ga. at ~~H.S.P.~~ H.S.P. ... I do not have to be tortured by undercooked, raw foods, Racists white supremacy, toxic gases, unsanitized kitchen, unsanitized dorms, skunks, goose shit, verbal vulgar abuse, under portioned meal/calories, outdated spoiled foods, lack of cognitive, education, religious, counseling services, inevitable lockdowns, etc etc. So you see; there is some good here, but there is a wide range of security breeches that ~~can~~ can/will cause the death of a father, son, uncle, brother, grandfather, cousin, friend whether we ~~acknowledge~~ acknowledge it or not? my duty is not done, yet.
