

NDOC Warehouse Industry...

By: Erin Kuhn - Braun #72103

According to The Merriam-Webster Dictionary, warehouse is defined as a place for the storage of merchandise or commodities, and industry refers to a department or branch of a business. And I believe that there could not be a more accurate description of what the Nevada Department of Corrections has become, especially at Fmlycc in Las Vegas which is the only women's prison in Nevada. The word Corrections at the tail end of NDOC is defined as to make right.... And I find myself daily wondering and asking myself if that is truly what the Doc is all about, or is it ~~the~~ ~~the~~ ~~the~~ actually a warehouse industry as I have come to believe now after 20 years of incarceration. If I was a business owner, and the word Corrections appeared anywhere in the title or description of what my business

- one -

Good for as a whole I would look at
it two ways: #1 wow! I must be doing
well in my Business & Venture because
the "Merchandise" in my Business is at a
all time high, & #2 I would be, is my Busi-
ness really portraying a example of
Corrections at the end of NTab, And I,
as a Business owner would have to say
"No" to #2, because as I view the Mer-
chandise on my ~~shelf~~ ^{warehouse} I am constantly
rotating the "long term" stock to add new
current stock on a daily basis even
though the long term stock seems ripe
and ready to use to "feed" others I'm
going to follow my warehouse policies, and
continue to rotate ripe/ready items
to the back because some higher up
stated on the Merchandise sales form
that the product would not be ready
for at least 5 years, & never, even
though I can see that I truly do
have ripe & ready items that will have
spoilage eventually because everything
expires past a date at some given
point.

The Topic of warehousing must be
addressed. ~~##~~ People change, grow, have
a spiritual enlightenment, mature, and
- Two -

Even have their lives Touched by
the hand of word of God. At times
I find myself asking why the NAC,
Primarily at Fmucc does not
revisit/ reevaluate their inmates to
notice & see that there are those
who get to, their lives have been
healed and restored, and could act-
ually be used to the Benefit of the
DOC to be a Active witness and
example to Society and the Comm-
unity at large to show others
who may only listen to someone
who has walked further down the
road that they find themselves on,
to say this is not the way life has
meant to be lived, and help others
make changes because of the changed
life of others. The last Paragraph
is not what happens. The only female
inmate to receive a Pardon (I be-
lieve in the last 15⁺ years was Cheryl
Cheryl Walker who actually ^{was} released
on a Compassionate release, which was
actually for the Comfort of the
Department because Cheryl was
-Three-

being housed in Medical with Dementia
which demanded Round the Clock Care,
and listening to her Scream at the
Top of her Lungs almost 24^{hrs} a day.
After She Saw the Pardons Board, her
Release Manifested itself 24^{hrs} later,
and She passed away 2 weeks later.
I Truly believe that NDoc is a Business,
and that is why you do not hear about
Pardons out of Nevada especially at tnvcc,
because the goal of any good Business
is to Make a Profit at the end of
the Year. Another Amazing fact about
NDoc (tnvcc) is, that all inmates have
a account along with a Trust fund / lock-
box Set up so that upon release they
have some Money to walk out with. The
Most disturbing fact that I have no-
ticed is that everyone receives a Trust
fund / lockbox, regardless to Sentence
Structure. So, even on inmates serving
life without Parole, which by Mens
Standards you will not "walk" out of the
Doc, they still reap the rewards of
the interest pulled from the account that
is full when it reaches \$400,00.
