

"Constitutional Right"

1-24-20

FM WCC NDOC Las Vegas, NV is in violation of my Constitutional Right to be free of crule and unvsal Punishment by allowing me to sit in a dark cell for ~~24~~¹⁴ Hours a day for several days now. ~~Per warden say 24 hours a day, but I get to go outside for 1 hour and go to the gym for 1 hour a day.~~ The facility has electricity so their is no excvess as to why my lite in my cell is off.

Having no light is Hazerdous! I'm on TOP Bed so I have to Climb up and down a ladder to get off my bed. The way that this facility is ran is outrageous and rediculous. I would Purchase a light "lamp", but Per warden were not allowed to drop special order forms while were in unit 7 (BMU).

FMWCC had some kind of Power outege and when it was fixed the main areas in the facility had light, but I guess they forgot about unit 7 Cell rooms. Because I guess Unit 7 is of non importance considering that it is "segergation". Unit 7 has little windows to allow light to come in from outside, but when the sun goes down

it becomes pitch black in my cell?

I should not have to live in fear of falling while coming down my ladder at night. The problem with the light timer needs to be fixed in the cell rooms in unit 7. THIS IS CRAZY!!!!
