This prison system is made to make
The Rich Richer. The poor more needy.

This is a mental grenade. How is a life
sentence, Deathrow, Life without parole. All
three you are going to die in prison only
difference is the title and how long you got
to live in prison all three sentence you
are not in control of your release is not
valid. It's up to a panel of people called
Board of parole hearing. It's the death penalty
and a different form. Any sentence
with life you have no release date so
it's useless to try and cope with the
changes that go on in prison. I have
20 to life I have no release date I only
have a Board date it's up to people
of Board parole hearing to find me suitable
for parole they can deny me all they
want. I'm stuck hopeless my destiny is
with them. I deserve to be punished. But a death
sentence is a little harsh I was 19 years
old when I committed my crime. I'm now
28 years old going on 29 my first time
for me to get a Doc hearing I will be
31 years old. My life can be lost
inside these prison walls nothing is promised
my family had nothing to do with my crime
but yet and still I have to ask them for
money to eat canteen. I have ~~no~~ restitution
my money that people send get took by the
system. I should have to pay when I'm released
from here. I have no release date
I only have a parole hearing date. If they
feel I'm the same 19 year old who committed
this crime I'm done. Useless hope. I have
no ~~sun~~ sun shine. I get ~~real~~ milestones

But they don't get me a release date
I just go to the Board sooner.
They still have power to deny me.
For 15, 16, 19, 20, 21 years Denial.
The system need to change
They need to Re program inmate
try to teach the right way to live
instead of giving out time that
can't be done by single man.
There is no Rehabilitation in CDCR.
C/O's provoke people daily.
They write people up
and give them more time like
the C/O told me you have a date
I'm going to write you up more
So your date can be pushed
back its a trick ~~to~~ Bag.
change is needed in the system.
