

Can anyone imagine even for a moment what it's like to be arrested for crimes you never committed, they have to sit in Court drugged out of your mind on 250 mg. of Elavil, a highly addictive prisoner management tool that the County Jail was using.

I am only now learning for the first time what and why my entire time at trial I was so dizzy, passed out and was sleeping eighteen hours a day as I read the Medical Summary Transfer Report and the cautions and risks of a Medication I would of never have taken unless under such extreme mental circumstances.

Why is it that no one in the Court, like; The Honorable Judge C. Levi, or District Attorney Maney C. Jolliffe, and Public Defenders like Pam Brown could not see this?

Would you ask a drunk person if they understood?

I'm sending you the same copies as I'm sending others.

Why is it no one was there for me? I was alone, frightened out of my mind, Drugged!

Thank You
