Footnotes

INTRODUCTION

" In a prison the check of the public eye is removed; and the power of the law is spent. There are few fears, there are no blushes. The timid become the more modest; the audacious harden the timid. Every one fortifies himself as he can against his own remaining sensibility; endeavoring to practice on others the arts that are practiced on himself, and to gain the applause of his worst associates by imitating their manners..." (1)

The saying is true in a unjust society the only place for a just man is also prison. For many years people Black or white, men and women have ~~been~~ writing prison. Either they wrote about Prison reform, conditions, their life in prison etc. people put truth about prison out there.

The American Prison system is one of the worst and corrupt systems in the world. Although many countries prison systems are corrupt as well such as: Nigeria, North Korea, Cuba, Syria and South America.

Amerikkka prison population is over 2.5 million with many others on parole, probation, house arrest, in county jails, child support and drug rehab. Even the Juvenile Justice Department prison population is increasing.

● I write this today from the confinement of a "Structured Living Unit" in one of South Carolina Department of Correction's death tombs. This structured Living Unit is a dorm full with Lumpen organizations and violent comrades. This State Department try to control its "trouble makers."

Units like this one I'm confined to like many others in Amerikkka's prison's system's breeds nothing but violence. I do not promote violence nor am I violent towards any comrade, however, the pigs deem that my presence creates violence.

As I reflect and build with society today about the truth of Amerikkka's prison, overstand that I take full responsibility of it's content. Prison Lives Matter to me and it shall matter to you Amerikkka. Never Forget about the Forgotten because we matter.

● Over one and a half million childrn in the United States have a parent in prison. (2)

● Fifty-six percent of all state and Federal prisoners have minor childrn. (3)

● 58% of the childrn with incarcerated parents are under ten years old, with a mean age of eight. (4)

● Almost seven percent of all Afrikan-American's childrn, 3% of all Hispanic childrn, and 1% of all white childrn in the total population have a parent in prison. (5)

1. Prison IN-TAKE

● Once you enter prison you will never be the same again. In most states after the Judge sentenced you to prison, you are transferred from the county jail to a Reception and Evaluation ("R & E") prison for processing. The following every prisoner undergoes during R & E:

- Confiscate everything from the outside world from you except pictures and mail.
- Take a photograph of you and change your name to an inmate number.
- Give you state property such as: Boxers/Panties, Socks, Bras (for women), Towels, etc.
- Blood test you for disease, HIV/Aids, TB, Hep A, B, C etc.
- Assign you to unit for housing until you're transferred to a minimum, medium or maximum prison. You will be waiting months in R & E to start your bid.
- Give you prison rules and regulations like the grievance procedure, visitation, and correspondence privileges.
- During the R & E process they starve you, no visits, no rehabilitation they (Prisonrats) do this to break your will to resist in the future.

During this process you are housed with many brothers/sisters from all over the state you are from. Unless you are confined to a federal prison you are housed with comrades from all over Amerikkka. In South Carolina you are housed in R & E with three comrades that was sentenced with numbers they haven't lived yet.

What you have done in society will follow you in prison. IF
you ^{were} ~~was~~ recognize as a gang member the Special Investigation
Unit ("SIU") will be questioning you and take photographs of your
tattoos. The Reception and Evaluation process strips you of your man-
hood and womanhood.

2. GENERAL PRISON POPULATION

Besides Washington, DC and Boston, Mass the general prison population is the most corrupt place in Amerikkka. The average prison in Amerikkka has at least 1,000 prisoners confined to it's many institutions. South Carolina is one of the states with at least 20 different prisons.

These prisons are governed by Wardens, Associate Wardens, Financial Accountants, Secretaries, Ranking Officers, Correctional Officers, Food service employees, Classification Committee, Mental Health counselor's, Search Team, Teachers, Chaplains, Maintenance, Post Masters, Grievance coordinators, Transport officers.

Not to mention the Commissioners/Directors of the state/federal prisons and their flunkies. Most prisons have at least a total of five or six units/dorms, that houses anywhere from two to three hundred prisoners. The cells are small and not fit for two people let alone three.

These cells come with solid white toilets (in some prisons steel toilets), a sink desk, some come with lockers, steel bunk beds, one window, a vent that blows bacteria and germs along with cold air, a cell door, four walls and of course a cellmate.

Your cell is subject to all sorts of vermins such as: Man eating cock roaches, ants, earwigs, spiders, bed bugs, fruit flies, bacteria and germs. No matter how well you clean your cell daily (me, I suffer from OCD) your cell is infected with vermin disease.

Each dorm has two sides an A and B side. Each side holds at least 50 cells with two or three prisoners confined to those cells. There are eight showers on each side, one is for the handicap. There are four color televisions without sound (prisoners argue over something that they cannot hear.)

Unless you have a radio this is the only way to listen to what's playing/showing. Six steel benches for you to sit on. There is two day rooms on each side, and on each side one is used for the Muslim prayer room. There are microwaves that constantly break, hot pot, water fountain, and officer desk, a million lights, officer telephone, fire extinguisher.

Each unit/dorm has a recreation field/yard. Each prison has a kitchen where we dine in at. A Commissary, Canteen (where we purchase what we need), Medical clinic, Education building, gym, mailroom, operations building, maintenance building, mailbox, Chapel, a entrance gate, and of course Prison Industry plants and Restricted Housing Unit ("RHU"). The prison society is very dangerous, corrupt, oppressive, evil and very destructive. Keep in ^{mind} ~~my~~ that prison houses murders, rapists, drug traffickers, robbers, prostitutes, con men, thieves ~~ect~~ ^{ect.}

There is no peace in prison just a bunch of myn, womyn and age 17 childrn who the world has forgotten. However, general prison population houses some of the most brilliant minds in the world. Oppression breeds resistance, but it also breeds education.

Prison breeds the thinkers, dreamers, ~~violence~~ ^{violence}, homosexuals, revolutionaries, business myn/wombmyn. You have comrades who waste time back here, you have some who occupy their time. You have comrades who given up and others who continue to fight.

The prisonrats who work these prisons are the scum of the earth. They are trained to make doing time extremely hard by treating you like an animal. These pigs bring their personal beef from society to work.

Overstand the prisonrats outside of prison are subject to abuse, rape, loneliness, abandonment etc. Some of these pigs are training for the police force. Others are too lazy to search for real jobs so they ~~come~~ ^{work} to prison.

Overstand while they oppressing us they themselves are oppressed by the same system. Constantly being yelled at by prisoners, body fluids thrown on them, wombrn are subject to get rape and/or exposed to public masturbation.

On top of that they are subject to be killed, undermine by high nk. They are told what to do and how to treat an inmate for chump change every two weeks. The racism, discrimination and criminalization is extremely high in prison.

60

percent of the prison population is Black, the rest of the population are Hispanic, Asian, Islanders, and whites. Prison is a world where homosexuals are honored, snitches are celebrated, cowards are in position and the rest are discriminated against.

The prisonrats promote homosexuality by not allowing prisoners conjugal visits. Prisoners aren't allowed magazine's that reveal too much wambryn's skin. They allow transgenders to work the population and allow ngn to be wambryn.

Prisonrats also create violence amongst the prisoners. They use the "Bad Jacket" tactic from the 60's amongst the leaders. Constantly placing the institution and units on lock down. There's no rehabilitation programs, privileges taken so what you think all that creates? - Violence.

I write this today out of my personal experiences in prison. You see the media doesn't have a full understanding. Our Families and friends don't ^{as well} ~~see~~. The only people that can tell a prison story is the ones that make it out and those who never will...

2 Since 1980, the number of Blacks in prison has tripled. Between 1979 and 1992 the percentage of Blacks among those admitted to state and Federal prisons grew from 39 to 54%. Incarceration rates for Blacks in 1991 (1,895 per 100,000) were nearly seven times higher than those for whites (293 per 100,000.)

- The Bureau of Prisons is responsible for housing about 185,000 inmates.

- There are 122 Federal Prisons.

- There is 11 private prisons.

- Over 200 community-based facilities.

- The BOP employs 38,000 people.

- About half-a-million correctional workers supervise about 2 million incarcerated persons. Another 4 million adults are under other forms of supervision.

- Approximately half a million Americans are currently incarcerated for drug convictions at the state and Federal level.

- As of 2014, drug felons made up more than fifteen percent of the 1,50,958 inmates in state prison, and more than 50% of the 210,567 inmates in Federal prison.

- 60 percent of those in prison today are people of color.

3. Everything about Prison is Slavery

- The new form of slavery Frederick Douglas spoke of is "Prison". Prison is slavery and the proper term for it is "economical slavery". Just like the old slave system was a profit, prisoners are also a profit. Listed below is the symbolism of slavery.
- Slave selling - During slavery owners will trade or sell slaves. Today, the county and city jails do the same thing.
- Branding Slaves - During slavery owners had auctions, they will brand their slaves with four digit numbers. Today, prisoners are giving six inmate numbers.
- Runaways - During slavery slaves will escape from the hardship on plantations. Today, prisoners escape from the same hardships.
- Rebellions - During slavery there were brave slave leaders who organize the people to end slavery. Today, leaders of prisoners organize around their conditions.
- Food - During slavery owners will feed slaves insides of animals, corn meal and scraps. Today, prisoners are fed processed food.
- No wages - During slavery the owners had slaves working for free from sun up to sun down. Today, prisoners work the prisons with no pay with the exception of Prison Industry (PI) jobs.
- Housing - During slavery slaves lived among horrible and inhumane conditions. Today, prisoners live under similar inhumane conditions.

- Transfers - During Slavery owners who couldn't handle slaves will transfer them to other owners. Today, prisoners who's a ~~threat~~ ^{threat} are transferred to another prison.
- House Negro's - During slavery you had slaves who work in ~~the~~ ^{owners} homes. Today, you have prisoners who work around the warden's.
- Field Negro's - During slavery slaves will work the field keeping the plantation together. Today, prisoners keep the prison together.
- Inadequate Health care - During slavery slaves had no medical treatment most died from sickness. Today, prisoners receive medical care but it's inadequate.
- Slave Catchers - During slavery owners had problems with runaways so slave catchers (Police) was created. Today, prisoners who escape are captured and placed in the Restricted Housing Unit (RHU).
- Informants - During slavery slaves will inform on other slaves who plotted to kill the owner, escaped, or planned rebellions. Today, inmates inform on prisoners for the same reasons.
- Lynching/Torture - During Jim crow slaves was lynch and tortured. Today, prisoners are lynched and tortured by correctional officers.
- Childryn Taken away - During slavery mothers will give birth and their childryn was either sold or raised in owner homes. Today, wombmyn prisoners who are pregnant childryn are taken away and giving up for adoption.
- No sex - During slavery most myn couldn't copulate with their wombmyn. Today, Myn and wombmyn prisoners cannot copulate until they are selected.

4. Prison Policy And Procedure

In prison the prisoners are governed by Policies and Procedures. Prisoners expect for prisoners to abide by these rules, however, they violate them every day. Listed below is the South Carolina Department of Corrections policies, every state is different.

- OP-22.03 Authorized Inmate Property and Disposition of Unauthorized Property
- Adm-16.07 Agency Recycling Program
- OP-21.08 Contracted Labor Crews
- PS-10.08 Inmate Correspondence Privileges
- OP-22.35 Contraband Control
- PS-542 Certified Mail
- ADM-16.08 Commissary Operations
- Medical Directive-300.A-17 Continuity of Care
- OP-22.16 - Death Row
- OP-21.05 - Designated Facility Inmate Transfers
- OP-22-³⁶~~16~~ - Damage, Destruction and abuse of property
- GA-03.02 Drug Free Workforce Program
- ADM-11.36 Dual Supervision

- HS-13.04 Inmate Death
- OP-21.09 Inmate Records Plan
- ADM-11.02 Inmate Barber/Beauty ~~Shop~~ Service
- GA-05.01 Investigations

OP-21.06 Inmate Identification
~~GA-03.03 Inmate Drug~~ Cards

- Medical Directive 900.A-7 Internal Affairs Access to Health records
- Medical Directive 900.A-6 Inmate Access to his own Health Records
- HS-18.15 Level of Care
- HS-18.17 Medical Co-payment
- HS-300.25 Medical Parole
- HS-18.07 Medical Records
- OP 22.11 Maximum security Unit
- Medical Directive - ⁵⁰⁰~~300~~-11 Medications For Inmates going to court
- OP-22.17 Key control
- OP-21.11 Loss of statutory good time
- HS-19.01 Placement of Inmates in CEs
- GA-01.01 Policies, Publications, and Forms
- ADM-12.01 Procurement of Commodities and Services
- OP 22.38 Restrictive Housing Unit
- GA-06.04 Request to Staff Member
- ADM-15.01 Repayment of costs by Inmates
- Medical Directive-900.A-9 Request For Information from outside providers
- OP 21.01 Security Threat Group
- OP 22.19 Searches of Inmates
- OP 22.23 Statewide Protective Custody
- HS.18.01 Specialized Health Service Programs
- SK-22.02 Safe Keepers

- ADM-16.40 Surplus Property Disposal
- ADM-15.06 Special Funds Account
- ADM-11.39 Staff Sexual Misconduct with Inmates
- HS-18.05 Sick call and Dental Health
- ADM-11.32 Sexual Harassment
- ADM-15.02 Telephone Use
- OP-22.10 Transportation of Inmates outside Institution
- Medical Directive-900.A-4 Transfer Medical Records
- OP-22.01 Use of Force
- PS-10.09 Youthful Offender Intensification Program
- PS-10.04 Volunteer Services Programs
- GA-02.05 Victim/witness notification

5. Prison Food

The Food in Prison is not fit for human consumption. The Food service Department doesn't serve prisoners nutritious or adequate meals. The meat prisoners consume is process meat therefore, it can be anything.

Most Department of corrections ("DOC") has it's own garden, cows, chickens etc. Prisoners produce most of the food by working the gardens, feeding and milking the cows and chickens. The prison food remind one of the times when slaves were giving scraps to consume.

By law the food don't have to be "tasty" but it does have to be nutritious and adequate. You have different diets in prison you have: 3000 meal and 2400 meals for the Diabetics; Vegan meals, meals for those allergic to certain foods, Nutri-loaf ("a bunch slap for RTHU prisoners"), Finger Food for those prisoners that's on "Crisis Intervention" ("CI"); and regular meals.

The only time the food is "festy" is when DHEC visits the institution. Prison kitchen is dirty because dirty prisoners work in the chow hall. I, myself is a vegetarian and even the vegetarian food is inadequate to the point of not eating at all.

The prison canteen is no better. The canteen is where we can order a variety of food, cosmetics, clothing etc. Nothing on the canteen ~~can~~ is healthy just a bunch of snacks that will get you over weight. Prisoners are forced to spend money on canteen due to the prison food.

Some states feed prisoners twice on the weekend claiming a budget cut. However, they feed prisoners three meals during the weekday. Prisoners is not healthy due to Prisoners failure to feed prisoners nutritious and adequate meals.

6. Prisoncrats And their Positions

The prison system has many people who work many positions in order to profit Billions of dollars a year. I shall call them "Prisoncrats", pigs, Tyrants, Scums etc. These prisoncrats only have one job and that's to exploit, torture, lie, profit and oppress millions of people.

7. Restricted Housing Unit ("RHU")

Now the Restricted Housing Unit has many names such as: Special Housing Unit, Lock-up, Maximum security unit, Administration Segregation. The Restricted Housing Unit is a prison within a prison along with Death Row.

If you violate a prison rule you are subject to be heard/sentenced by the Disciplinary Hearing Officer ("DHO"). The DHO is a Judge in prison. He/she can take away your privileges, sanction you to Segregation time etc.

The prisonrats places comrades in the RHU under false charges, investigations, Protective Custody, Safe keeper, crisis intervention, Security Threat Group, Security Detention. I know so many writers have written about segregation therefore, you should believe them.

There's no peace in segregation comrades always yelling, banging on doors, beating with each other, screaming derogatory things at the pigs, ~~see~~ suicide, ~~cutting~~ cutting themselves, playing in human waste etc. Segregation kills you mentally, emotionally, spiritually and physically.

Pigs hardly do their cell checks. A cell check is to see if you're alive or dead. You will never receive a hot and adequate meal while in segregation. The pigs use everything we're entitled to as a weapon for control.

I have did a total of 6 years in segregation not counting the minor times I been in segregation. To this day I'm still classified as a Security Threat Group. If you're not strong enough segregation will murder you...

- Forty-Four States have Supermax prisons designated solely to house prisoners in Solitary Confinement. (1)
- The Federal Bureau of Justice estimated that today over 80,000 prisoners are held in restricted Housing Unit. (2)
- Of the 80,000 prisoners in solitary confinement in the United States, there are at least 25,000 in supermax solitary confinement. (3)
- The first Supermax Facility opened in 1983 in Marion, Illinois, creating the "Marion Model", which became a ^{Prototype} ~~prototype~~ for supermax facilities across the United States. (4)
- The Federal governments main Supermax Facility - ADX Florence - which opened in Colorado in 1994. (5)

• By 2000, there were over 60 Supermax institutions in the United States. (6)

• In recent years, the Bureau of Prisons (BOP) has reduced its use of Restrictive Housing by 75% without compromising the safety of its correctional officers and its facilities. (7)

8. Constitutional Rights of Prisoners

Medical Care

Prison officials are obligated under the Eighth Amendment to provide prisoners with adequate medical care. This principle applies regardless of whether the medical care is provided by governmental employees or by private medical staff under contract with the government. (1)

Recreation

As stated in "Peterkin v. Jeffes," 855 F.2d 1021 (3d Cir. 1988), meaningful recreation "is extremely important to the psychological and physical well being of inmates." (2)

Work

According to the 13th Amendment slavery or involuntary servitude is forbidden except as punishment for a crime. The crucial question is at what point does forced work become cruel and unusual punishment? In "Talley v. Stephens," 247 F. Supp. 683, 687 (E.D. Ark 1965) the court stated "in this connection the court has no difficulty with the proposition that for prison officials knowingly to compel convicts to perform physical labor which is beyond their strength, or which constitutes danger to their lives or health, or which is unduly painful constitutes an infliction of cruel and unusual punishment prohibited by the Eighth Amendment of the Constitution of the United States." (3)

Programs

Generally rehabilitation programs are not required. However, according to some courts, prisoners should not be forced to be idle. Rehabilitation programs allow the prisoners some form of useful activity and have been recommended. (4)

Overcrowding

To determine if the number of inmates per cell constitutes overcrowding the courts look at several factors including the amount of in-cell time, understaffing, general conditions of the prison, and the amount of violent activity within the prison. (5)

Sanitation

Prisoners do have an Eighth Amendment right to adequate sanitation. For example there must be available adequate plumbing, vermin free conditions, adequate cleaning/cleaning supplies, and adequate garbage disposal, even if the inmates are responsible for keeping the conditions. (6)

Food

Individual complaints about food quality or dining arrangements are usually not taken seriously. However, food that is unclean, nutritionally deficient, or spoiled, can be grounds for an Eighth Amendment violation. (7)

Personal Hygiene

Although some courts do not take personal hygiene seriously most courts allow prisoners to have basic toilet articles like soap, a towel, toothbrush and toothpaste. They also uphold the right of access to warm showers, clean clothing, and bedding. (8)

Furnishings

Prison authorities must supply enough furnishings in a cell in order to allow a prisoner to sleep and eat without being excessively uncomfortable. Courts have stated that prisoners must have proper bedding and room to move. (9)

Heating

While temperature variations that are merely uncomfortable are not unconstitutional. A lack of heating or excessive heat or cold is considered unconstitutional. (10)

Inadequate Lighting

A prisoner has a right to adequate lighting in prison during some part of the day. Although there are no concrete guidelines courts have stated that there must be enough light to read by for at least a few hours each day. (11)

Noise

Although cells can be noisy a claim can be made if there is too much noise to sleep or to be able to converse normally. Excessive noise may violate the Eighth Amendment. (12)

Dilapidation

Generally claims are hard to win unless the prison has deteriorated to extreme levels. It is often possible to combine the run down nature of the prison with some other claim such as poor heating or overcrowding. (13)

Ventilation

Claims that the ventilation in the cells violates the Eighth Amendment usually do not meet with much success. However, if the odor or stale air in a room is particularly bad, it is possible to get an injunction against the conditions. (14)

Fire Protection

Proving that a prison has inadequate fire protection is difficult. Because of prison administration concerns for security courts will usually not intervene. (15)

Pregnancy-Related Health Care

Fact: If you are pregnant, being in prison or jail does not mean you lose
your right to decide whether to continue your pregnancy or have an
abortion. (W)

Speech, Visitation, Association

Publications Sent By Mail

Environmental Hazards And Toxic Materials

Assaults and Beatings

Prisoner Transfers

Disciplinary Hearings

Right of Access To The Courts

9. Prison Acts

• The Jacob-Wetterling Crimes Against children and Sexually violent offender Registration Act
