FMWCC - COVID-19

Las Vegas, NV.

~~COVID-19 has breached FMWCC~~
~~Las Vegas, NV security system~~.

The way this facility is trying to stop the spread of COVID-19 / or take precautions is ridiculous. FMWCC might as well have a sign posted outside the facility that says, "Welcome COVID-19 and thank you for stopping by."

The facility will post "MEMO'S" about everything else except for the TRUTH. It's like this facility is built up off of lies and C.O.'S, staff and warden and ~~and~~ Assistant warden, including anyone else who has a title working with this facility trying to constantly cover each other's ass's. The facility won't post a memo saying a staff had it or a staff who has a significant other who works at another prison who's inmate or inmates have tested positive for COVID-19 was working here and are doing what their doing to only take precautions. But will post a "MEMO" stating "The canteen has been temporarily closed. It

will re-open when it is safe to do so. This is for precautionary measures only!" The question still remains, why was it closed? What lead them to close it in the first place?

Canteen workers were quarantined and you mean to tell me it's not because there was a possibility that it was within this facility. Okay who's foolin' who here. A memo should have been posted stating "Covid 19 might possibly be residing here momentarily. How will the facility know when canteens safe to ~~reopen~~ open. Are specialist being called in to test the products, surfaces or the air.

As I ^{am} ~~was~~ writing this essay in comes the ~~the~~ Assistant Warden to give a Covid-19 update. After a week of Canteen workers ~~be~~ being quarantined. Assistant Warden states "Nobody in this facility has Covid 19. He also stated that he will be enforcing more strict rules for clo's and staff working here to ensure that Covid 19 doesn't come to this facility.

I feel that all staff working here and clo's should have to

wear ^{mask} ~~mask~~ to Prevent anything from being spread just incase they have it and may not ~~be~~ showing signs at the moment. That would be taking Precautionary measures. Making mask wearing mandatory because it's the staff that I'm concerned that will bring it to the facility. Because otherwise there is no way inmates could get it.

I know I can't. I don't leave the facility and nobody comes to visit me. It's nice to finally see that the Assistant warden is stepping up to a Wardens Position.

PLEASE DO NOT
SEND BACK
TO ME

THANK YOU
