

2nd Chance Program

P1
RDZ

I'm currently incarcerated in Arkansas Prison System the Arkansas Division of Correction formerly the Arkansas Department of Correction (ADC) as a "SLAVE" to the State of Arkansas of whom is "PROUD" to create NEW criminals from everyday normal people for slavery purposes. "Come to Arkansas for vacation, leave Arkansas on parole." Arkansas doesn't want to rehabilitate and reform their slaves of which are supposed to be incarcerated people not slaves or property. NOPE! Instead Arkansas loves, if not to the point of getting their jollies off, to "PUNISH", "TORTURE", and "ABUSE" their slaves and refuse to PROTECT the incarcerated people and/or the people's personal property. Arkansas enjoys dishing out "RETALIATION", "PUNISHMENT", and "RETRIBUTION" to their slaves and say, "If you don't like it, don't come to prison!" Don't EVER go to an Officer or ADC staff member about any abuse or torture by Staff or ADC Slave because the Staff on all levels WILL get word around to all people who told what (snitched). Several "snitches" have been murdered by both Officers and Inmates and many ADC murders are made to appear as "Suicide."

Arkansas Prisons offer very few meaningful classes or programs that truly benefit the inmates. All the ADC owned and managed programs are worthless, pointless, and do NOTHING for benefit, rehabilitation, reform, or behavioral correction of the people because those people have low recidivism and THAT'S NOT what Arkansas wants. Arkansas wants "CRIMINALS" so much so they enjoy creating them ~~is~~ not helping to correct or fix them. Two Colleges, a GED program, and Riverside VoTech, all externally owned and managed programs are the BEST and most meaningful programs. But

there are few 2nd chance Programs... so very few and majority of them cater to Federal Prisons and NOT State.

I offer a Proposal for a 2nd Chance Program that I fully plan to work hard at and on upon mine own release, ~~thus~~ ~~so~~ I would like to offer you opportunity to know some of my background before my proposal. ~~As~~ If you aren't interested please feel free to ignore the next two chapters.

do feel free to verify all above information if so desired.

Like so many People, I do have mental health disorders being Aspergers, Bipolar Type I, Psychosis, PTSD, General Anxiety Disorder, ADHD, and Severe Seizures which do not define me but have been special challenges of their own. Like so many other People, I've made and am paying for a very stupid one brought on because of love and passion. In Prison, I've been appalled by what I've seen and experienced. The racism towards me from State Officials and Prisoners just because I'm a white skinned Native American of the Cherokee Nation Tribe of Indians out of Talleguah, Oklahoma. Even my own tribe is like, "Yanie in Prison, pfft... forget ya!" because why not kick a person whilst they're down on hard times. It's the "American WAY" right?!? (See the OTHER essays I've wrote to REALLY get a grasp of things.)

Now that you know (ish) a bit of the background, the 2nd Choice Program... I plan to START and work on a Prisoner, or more Politically, Correct Term Incarcerated Person, program. I also want to get other Businesses and Organizations to get involved. Through an initiative called #ALLOFUS, I dream of seeing real "free world" job or career opportunities to be offered to incarcerated People. To see Businesses and Organizations of the Nation willing to and happy to train these Incarcerated Persons and to give them real applied career skills and life skills allowing them purpose, reason, and connections to the WORLD and Society. All of this done through real and meaningful jobs and careers that all STARTED while this Person was incarcerated and follows them through release, through re-entry, and hopefully through a much easier transition back into society. Incarcerated People

are real world talented People and are Valuable individual resources to society, fully capable of great things in real jobs making real money supporting their families on the outside, contributing to society on the outside, and not being a drain supporting themselves on the inside while incarcerated. They, those amazing People, would take on real responsibility learning new trade skills and work with a life coach and/or mentor to learn and have accountability, self disciplinary, and behavioral skills to succeed in the free world upon release. These incarcerated persons deserve opportunity to contribute and do ~~some~~ something with their life and time no matter if they have a short or life sentence. Discrimination based on Race, Gender, Charges, Age, or anything should NOT be allowed, only on behavior and attitude which effects performance and possible disciplinary issues. I want to see this dream a reality.

This 2nd Chance Program would give everyone the chance to participate in something exciting and bigger than themselves. It would give the Incarcerated the opportunity to work in the free world making a real difference while earning a real income and NOT being FORCED into SLAVERY by the Prison and State like Arkansas and other States Unconstitutionally and Illegally do. Today, Prison is NOTHING but "WHITE SLAVERY!" Why, NOT give the Incarcerated People the opportunity to give back to Society, to Community, to support themselves and their family, to have funds to live on and survive on upon release, and best of all, to already have a career of positive work history with a connection to the rest of the world in a creative and positive way. This gives the Person of great value the chance and ability to contribute to Society, humanity, ~~and~~
