

Submission for A.P.W.A. "

Keeping Calm In The Crisis of Covid-19.

Truthfully, Keeping Calm is really difficult for me because I only have my Mom by my side throughout my Prison Incarceration, plus she's the ONLY one who takes care of my needs, whether Emotionally, Mentally, or Financially. I worry about me catching, then dying from Covid-19, but the Prison Officials or Lawyers that they doesn't, tell her an lies as to the real cause of my demise.

Then on the Flip Side, what if she dies or leaves me all alone with No family connections in a strange State where I don't even fit in at no matter what I do.

I've been Locked-DOWN for over 3 months with no ending in sight, so I wonder if this is the New Norm.

The President and the Governing Body of America has me so Pissed because the longer they refuse to be a Leader, not a Person who's trying to please the Business Owners, NRA, Rich Society, and whoever else an SHUT AMERICA DOWN until they, either find a vaccine and a Mass way to get it administered to everyone.

The longer they, in the Outside World, stay Unorganized, the longer we, in Prison, can't get to "trying" to live the best life we could. There is a shortage of almost everything like Medical Supplies, Food Products and Hygiene we can order. There is no more Picante Beef Soups, Chili Soups or Spicy Vegetable Soups due to Coronavirus.

I'm hoping things will loosen up soon, I'm experiencing "Cabin Fever" with a little Ster Craziness on the side.

Enclosed is a Hand-out, about how to Cope with Covid-19. This is the only thing on my mind today that I wanted you all to know.
Ya'll take care.

P.S. Here's a Book I think A.P.W.A. would enjoy and post on your ArchWeb.
