RE: PERMISSION PAGE
ENCLOSED

dear ApwA....

Greetings, I've written before I'm following up my position being in Gen. Population, I don't have many I write to in the "free" World, to print pages of my writings, I do write another type Articles to a "free Blog" its Between The Bars.org I located it years back as I began using Resource directories, I wrote Radical magazines and organizations before I left Death Row, yes I was once a condemned man... for a little over 2 decades I occupied my time, firstly writing to individuals whom I talked to around me... let me give those who maybe read this, I got locked up and sent to TX death row 1988, But in about a few months I had a confidential hearing as I went back it was the beginning of 1989, I was sent to Ellis one unit... there we had the opportunity to work, in a garment factory I did so for years, I even became a SSI Customizing as there called, But we also had then, in cell crafts, you were able to make wood projects & other types of items, as I said write to me

2
and I can fill it all in to you... but
it was 1998 on Thanksgiving day... 7
death rowers tried to escape... All but
6 were later caught I was on the lamb
for about 10 days, it was cold & rainy
that night...

Afterward the State did try
to make some renovations, it wasn't
til mid 1999-2000... When about 100
inmates were moved, the Unit at 1st
was called Charles T. Terrell in
Livingston, TX... this was not all but
in mid 2000 all 360 others on D/R
were moved... Allot was in the
media & even videoed taped showing
the move... they at first said it
was due to the expanding of 460
But we all later realized the Unit
at again was renamed Allen B. Polunsky

for 12 yrs I remember it like it was
yesterday... there was allot of violence
at Ellis one... that wasn't the 1st escape
for 10 yrs I truly remember 5 others
whom attempted... knowing what goes
on in a state prison isn't always put

in the NEWS OR media... I can
tell most Books about Tdc... See
it was mid-90's When Tdc was
changed to Tdcj-I.d.

Working as a SSI... Staff
Support Inmate... they get monthly
its like the old saying Some have
a mouth like a Ship... it will Sink it
you have a mouth... like a SAILOR
it can Sink a Battleship... its true
I assisted officers on a deathrow
wing... I Helped & did things to
Support them... G-15 was the Wing I
was on... I Lived on H-17... I was
a 1st Shift SSI... 1993 til 1996... I
was only 28 yrs old when I 1st got to D/R
I'm now 60 yrs old...

I have a friend who I write to
Between the Bars.org last Night I got in
a Jpay.com its a e-mail we can have

We've been on a Quarantine type
Lockdown Since April 8th... We don't

4
Come up til 2nd... Unless Some
one else tests positive to
Covid-19....

lockdown to me is easy... Being
I've got a cell-mate... it's easy to do
I'm used to 45 days Back to Back... it
is like if you lock yourself in the Bath
Room... for a day or two over a Week-
end... Live with a toilet for 12 yrs?
the cell is clean, which responsibility
is shared, but at Nite... cockroaches
do run on the floor & toilet... as if
to drink water....

I am not Living in a motel
or Hotel, its prison cell... I eat & Sleep in
the same... for now, But Basically
When most ask me what its like I
give a example to their living where
they are.... I was given a Reversal
due to my Appeals, when your on
deathrow... you automatically set up
Appeals, CCA, Fed, S. Ct. ... Now its all
time applied your limited, Back in time
I 1st came here, you could go to each
Court numerous times, its not like that
now... but the High Court gave me
the Reversal which demanded me a punish-
ment phase trial.... I waived it due to

the state Agreed to make me a plea deal, I Agreed for 2 1/2 yrs later I signed in 2015 for 2-CONSECUTIVE capt. Life Sentences... Most Woudnt of, but I figured long term Results the death penalty will be thrown out, thats When I'll Appeal....

Most dont Realize the State is Holding the death penalty over me... So if then I Could Get 1-life then I'll have 5 or more lifes done... I've been here 32 First yrs....

input is what I'm Seeking to these writings, to educate Society is a two way Street... As I Read this sub mission page... there is no other experience first-hand that ones survival... is the key to day-to-day living correct... to Help for those to Under-stand... is inter-action... www.jpay.com is ^{BEING} ~~Anonymous~~... Anonymous, you Could Write me thru my Blog Between the bars.org give me Advice or even Ask me what you want to know About prison life?
