Its Nice to be welcomed to CT., when
your from out of state.

I say I'm from Both, because I came
to Connecticut in 1972 and back
then, I finished the 2nd grade in a
Catholic school, which my grand
mother paid for. She was born in
Connecticut, and I guess she wanted
us to be raised in CT.

By the time I was in the 3rd grade
we was taken from my mother, due
to her heroin use.

Till this day, thats ONE drug that
I never went near, calling my
self getting high, with a needle
in my vein, Ha! that will Blow the
high, with me not liking needles at
all. I make pizzas in here and for
the \$3.10 I spend for the sausage & cheese,
I make \$12.00, so that profit is enough.

I done been locked up for 10 1/2 years, so I kind of bond with certzin officers, then some officers like Ms. Green today, who plucked my nerves, and by hypertension running through my family, I lether have it. and thats when I went to get the ink for the piece of crap typewriter that they have, and when I get on it, and start, it takes my mind out of here mentally.

I ENJOY doing somethings positive, positive over negative, all the time, is how I function.
