THE COVER-UP IN WHITEHOUSE INVESTIGATION NUMBER WH 20160613-08041285

All online fact-finders are challenged in the active concealment of these matters. "Dirty Laundry" exist as evidence of the violations in Whitehouse investigation number WH 20160613-08041285 as declared by Federal Judge Jennifer L. Thurston of the multiple violations with signed declarations of violations by CDCR that still exist as facts.

The Fresno Federal Court received these signed statements of facts still recorded as exhibits as CDCR's own findings of violating the laws of the U.S. Constitution, public record in the same case to be weighed by the 9th Cir. Court under De Novo Review as a mandate of law.

The same judge dismissed these illegal acts identified as committed by the defendants, violations declared to be "Dirty Laundry" upon private out of court communications with the defendants without any required court process before the action was to be filed. This evidence of participation by the defendants in case no. 1:10-00285(JLT) is recorded upon these public records dismissed after declared to be violations, the only definition of "Dirty Laundry".

No required actions of a investigation of a federal crime reported against officers or a public official has taken place in over 8 years upon being reported to multiple law oversight agencies.

This is not only evidence of active concealment of illegal acts but is evidence of intentional unfairness, a violation of the equal protection of the laws of the U.S. upon social classification as less than human.
