Hello;

Something that has been allowed in some of Kentucky's prisons is wing-hopping and most of the prison crime happens because of this. It is in the policies and procedures in every prison in Kentucky that wing-hopping is not allowed but it is not enforced at all in some of the prisons.

Inmates will go from wing to wing seeing who has what and how old/weak the inmates are that has anything of value.

Most of the time it's drug addicts and/or drug addict gang members looking for a way to get high when there are drugs in the prison.

I have been a part of Kentucky's prison system for over 25 years and this is the most out of control I have ever seen the inmates on average and the sad part is that it "appears" that prison staff could care less what happens?

I have heard prison staff at two(2) different prisons say that they don't get paid enough to care...

Wing-Hopping is when most older/weaker people (inmates) are assaulted and robbed and most of the time it's old white inmates (people) over 50 that are too weak to defend themselves...

This is a major security issue...

Thank you.
