

"Ignorance, Profitteering"

Introduction:

It's long been my heart felt feelings, that the majority of the "Get tough on crime Bills"; passed through out the Early 1980's, By various Political figures and Presidents, starting in the Late 80's with the "Reagan's" and spanning up into the 2000's. Have all been promoted as tuff and longer-~~but~~ Prison-sentences for "Violent Criminals" and "Violent repeat Offenders" When in fact these "catch-All-Phrases, Played upon the fear and Ignorance of the masses I.E. General Public to Achieve a Hidden Profitteering scheme that Included "Mandatory Sentencing" for "non-violent" crimes also, and for All states who took part there was Federal Funding Available, which in turn made Federal Funds Available for State Police, Highway Patrol's City Police, Drug task force and DEA Agencies yet all who recieved these Federal Monies, Had to Account for it in the Form of documented Arrest and Conviction's records. To continue getting these funds Each year more and more arrest must be made and Thus started the crafted process of Ignoring the rights of Public Citizens mainly the poor

and Ignorant.

I'm currently on my last 8 months of a 7 year sentence, in which I had to serve 85% equaling 5 years and 11 months before I can be released to community supervision to serve the remaining 15% totaling 1 year 1 month "Parole" deemed "Community Supervision". Which will be voided or over ridden by my 2nd crime of shoplifting in which I was give "3 years probation". yet I didn't qualify for probation on the Non-dangerous & Class 4 "Possession of a forgery device or Instrument" which carries a sentence of Probation or 1.5 years to 4 years for a "First time offender". In my case being "Prior-convicted Felon" who had been out of Prison 2 1/2 years before these two crime were committed I did not qualify for probation on the check charge, that got me sentenced to 7 years, while the prosecutor recommend 1.5 for a ~~year~~ check totaling \$750.00 that never got cashed. That's right, no prior violent crimes, "Seven hundred and ~~50~~ fifty dollars" This is here in the state of Arizona where I'm born and raised.

The Ironie part is that the presentence reporter who never spoke to me
 Recommend A Sentence 8.5 years in prison, and had the nerve to state in her
 report Submitted to the Judge " The offender is no stranger to crime and it seems
 His criminal activities are Escalating in Nature". My prior crimes are "Class 2"
 Felony "Low level sales" or "Conspiracy to Sales" Amounting \$10,000 on the sales
 and \$20,000 on the Conspiracy the Conspiracy Committed back in 2006, the
 Sales back in 2001.

Yet, what really made me know this wasn't about the Criminal acts
 and truly about the Money or Profits being made from my being Sentenced to
 Prison with Probation after in a "Plea-Bargain". The Judge and I Quote
 stated to me before passing sentencing. " Me's " had you cashed
 some checks totalling Hundreds of thousands of dollars and had money for
 a good lawyer, I'd ~~probata~~ probably be sentencing you to some Federal Camp or
 Prison only giving you 2 or 3 years, but since you ~~didn't~~ didn't and ~~obviously~~
 don't have any money for Counsel; I'm inclined to give you the 6 year →

"Sentence you ask me for being that there was no violence, the check never got cashed and the amount shoplifted was under \$324.00 which technically is a misdemeanor amount" But If I give you a six year sentence, when your last sentence was 7 years." "That prosecutor right there, (and he pointed at her) will report me to the Judiciary Committee as being soft on sentencing" So I have no choice but to sentence you to 7 years in the Dept of Corrections".

This is all true facts, I've used my writer name to protect my self from political or future prosecutorial persecutions. All this along with reading "Michelle" Alexander's "Book" "The New Jim Crow" has cause me to share my long time suspicions; in which her book confirms with documents, fact, and stats. That our current "Criminal Justice Systems", and those passing laws or upholding Appellant law in cases of rights being trampled for "Justice-Profits" is clearly profiteering off the general public's ignorance to the law and thus is all by design and grafted in favor of those profit from it under the guise of Fighting violent Crime & major drug crime for public safety and protection.

Mean the Pharmaceutical Company, Responsible for Heavily promoting
 Opioid and Phentanal Prescription (Mind you pay Incentives for Doctors to
 Prescribe) this Highly Addictive Drug; which In turn has Killed Thousands
 by overdose, ruin families by means of addiction problems. Got to
 settle outa Court with the Justice department and not one of
 the Owners or Top Position Holders did a day in Jail, That was
 on your Public News.

A good reason that Constitution law and your States
 Individual laws along with an Unbiased Introductory Course in "Political
 Science are not High School Requirements for graduation? Let alone
 offered as Elective credits ^{while} writing Essays on "Moby Dick" and "Lord of
 the Flies" are? I believe is thus in my written opinion of Reflection below.

In this Essay format.

Ignorance-Profitteering begins and Exist, when you as a Citizen of your Country truly don't know what was the "Original Law's" ~~and~~ all rights, or protections they were made and passed to afford and guarantee to you federally and locally as a citizen of your state or Country. Yet, those who do know, sitting in position of Political-Power? who we elected to represent you the regular citizen and those right of law. Can change, modify, alter, add too and rewrite in an outright means justifying their violations and even rule against their validity or relevance into day times in order to gain, generate, and create a profitable market arena by our original ignorance too and about the law.

By the time your an adult graduated Highschool, finish College and do encounter the law from the wrong side, for what ever reason? You realize even in your Ignorance something is truly not in accordance with logical-reasonableness as to how its being applied especially as a Black American or

any other Poor Unfortunate Soul and you have no legal standing's with those
in power to carryout and Enforce the laws federally or locally in your state. As
you witness denial of due process systematically that Impede if not trammel your
rights of Defense or presenting A Sound defendable Case before the Courts, all in
the Name of Corporate Profits, which you'll also find by diligently researching
given the opportunity, that many federal and state Entities, Economic Sectors of
Business and Individuals profit from; Earning a living along with Earning
Billions off the continually abridged rights we are suppose to be Afforded and
Protected by. In which the siding in rulings/opinions with the Exploiters
of so-called "gray Areas" and Our General Ignorance of the law for breeds sake,

Has made those in positions of Power to change and uphold the true
means of protections, these laws ^{that} were put in Place to Protect the Average or poor
Citizen from. ^{to} become obligated and beholden to the legalized Justifications,
opinions, biased Interpretation of the law in Big Money's favor, and outright
Stand adversely to our freedoms unless a price is paid in some means.

This so-called Political and Judicial Power Holders, will not risk the career ending ramifications of the "Parasitical Exploitive Greedy-Completion of Entities", that profit to the tune of "Billion" in every aspect of the Criminal Justice System from Law Enforcement to Prison warehousing all under the seemingly legitimized and rightfully-justified mis-carriages of Law violating ~~our~~ ^{our} 1st, Fourth, Fifth, Sixth and Eleventh Amendment Rights. in seemingly harmless, but so-called needed security and protections of the Public at large.

Our prior Ignorance of the Law and its Biased Applications of it, has let "Billion dollar profits" take precedence over some Individual-Citizen Rights and been allowed to manifest into this entrenched constant seemingly harmless encroachment upon mine and your's basic fundamental rights, all under the promoted guise its serving the overall all good of the Public and its safety.

all of this brought to mind an old street phrase we used to →

Say regularly, I'm not sure where it arose from? or by whom it was coined but it goes as such. I think; don't ~~quote~~^{quote} me on its specifics

"The Only Exchange or the two Exchanges that Happen;
When a Man with Money, meets a Man with Experience?"

Is, the Man with with Experience will get the money, and the man with Money will get the Experience." (Unknown by me as to Author)

yet, I choose to coin a New Phrase based on My Experience in the Criminal Justice System and Seeing the Biased Application of Law's fairness as a Poor Blackman who was Once truly Ignorant of the Law, but am now Experienced and paying a Life long price.

Title: " Ignorance of the Law "

" When a man with no money and Ignorance of the Law,
meets a man with Experience and Money, The poor and Ignorant
will be victimized and subjected to an Exploitive-money-generating scheme under the Law, by the man with money and means; while the

" Poor and Ignorant man, Not recognizing the "Lasting-detrimental-"
Cost" of this New Legal Experience due to his Ignorance and Lack of
financial means to Experience thus on Equitable terms from the
beginning; will Suffer the After Effects of this Exploitive-victimization
Long After the Experience is Lensed. "
