

They will never see
this

they will never see the long nights
think ing of death and your family
they wont see the toilet, sink and
basinet in one peice. Last night I
waited up to see my little friend
MR Rat but he didnt come

Do you know that I have no
lights in my cell so I'm writing
in the dark. which is cool with me
all I have to do is chase the shadow
there is a chinese guy across from
me that I get meds for the people
will lock up anybody I tell you

I think I will go to sleep after this
but even in my dream they will
never see this because they hide it
from everybody

I hate top bunks cause in
my sleep I have dream of running
or drowning I'm afraid I might fall
off the top bunk so I make my
camp on my cage floor. Its cool
it give you that old in your house
or back yard for a sleep over.
I have never had a sleep over I'm
just giving you a idea.

They will never see this
and they wont show you this

I live with and in so I know
the out come of it as they dont want
yall to see or know this. My eyes are
read for sleep - I doing them no
justice by writing in the dark
so who knows
